The chairman welcomed the board members and the agenda items were taken up.

The following are the record of proceedings of the Board:-

1. The schemes of 3rd and 4th semester B.Tech. (Mech) and B.Tech. (Prod) for 2011 admission batch were taken up. The schemes prepared in the previous meeting were discussed in the light of some minor observations from PTU. The schemes were finalized by incorporating minor changes as per the observations from PTU. The revised schemes are attached as Annexure ~A

2. Regarding the draft scheme B.Tech (Automation and Robotics), the following observations were made:

   - The draft scheme contains around 70% subjects belonging to core Mech. Engg. To make it specialized course, more subjects with focused coverage need to be designed. The draft scheme and course contents require thorough revision.
   - The members were of unanimous opinion that undergraduate degree programs with such narrow specializations may not be encouraged as the scope of employability of the students with such degrees gets too much narrowed down. It was stated that in the past also, such specialized undergraduate degree programs could not be so successful in spite of the fact that these were stated in reputed institutions like Thapar, Govt. Engg Colleges at Bathinda and Ferozpur.

3. The members who were requested in the last meeting to prepare the revised syllabii of 5th to 8th sem of B.Tech (Mech) and B.Tech (Prod) were reminded to expedite the work.
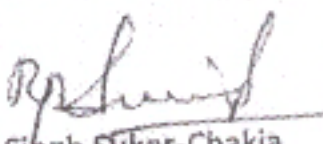

The meeting ended with a vote of thanks to the chair.

Mr. Gaganjot Singh, Assistant Registrar, PTU

The Board has taken the following decisions:
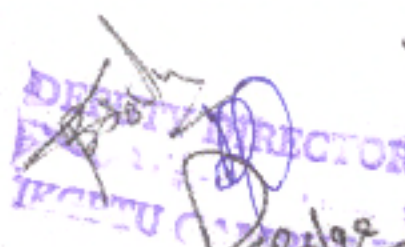

(1). The Syllabus and **Scheme of** B.Tech Automobile Engg, Batch 2011 (Semester 6th & 7th/ 8th) .& B.Tech Automation & Robotics (Semester 6th & 7th/ 8th) was discussed and finalized. The finalized Scheme and Syllabus will be sent by the Chairperson, BOS to the University within a week.
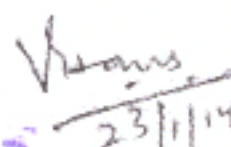

Observation: Henceforth when ever any Subject, Syllabus or Scheme for a specific Semester is to be scrutinized/improved or changes are to be brought in and it is to be subsequently approved by any BOS of PTU, the Institution concerned **must** submit their **Proposal** *at least one Semester,* **in advance.**

Over the last few years, it has been recurringly observed that the *Institutions concerned willfully or just casually* and *by default* approach the University only in the *"ongoing current same specific Semester for which the changes/amendments are sought"* and then the **Institution representatives** keep on *requesting* and *pressing* that no major changes be brought in the Scheme/Syllabi proposed by them since the Scheme/Subjects (*Course Contents*) are now already being taught by them in their Classes, and hence they request for the minimum changes in the "Scheme/Syllabi" proposed by them.
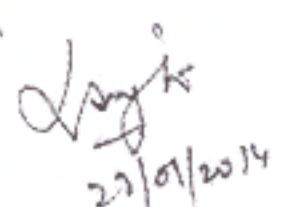

This virtually **puts down** and **clamps down** the hands of **BOS** to bring **suitable, rational** and **relevant drastic changes** which might be **essential requirements** of the day. The **irrelevant syllabi**
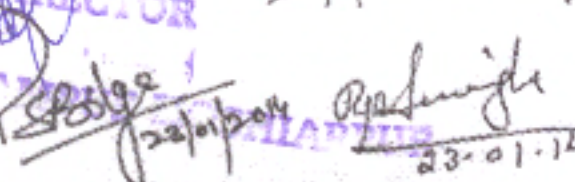

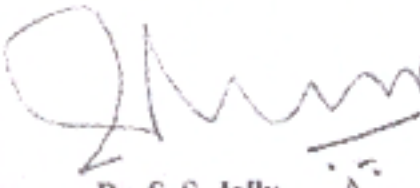

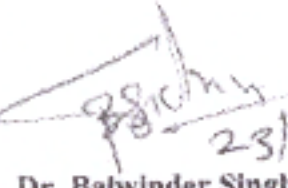

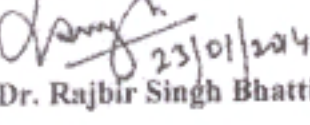

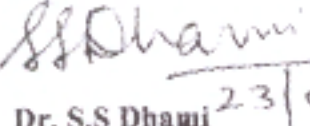

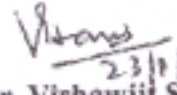

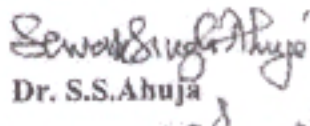

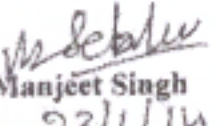

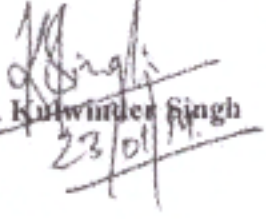

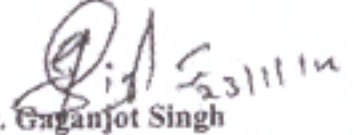

happen to *mismatch* with the *current requirements* and *trends* in the **specific Industry**. Consequently, the students are the **worst sufferers** who face gross problems and difficulties in their **placements**. All **BOSs** and **affiliated Colleges** may please be issued relevant **Instructions/Office Orders** for necessary appropriate action, in future.

(3). It is recommended that following *nomenclature* may please be adopted for awarding the *M.Tech.* *Degrees:*

M.Tech.Mechanical (**Specialization in----------).

**- mention the name of the specialization, e.g: *M.Tech.Mechanical (Production Engineering)*

Following decisions were taken:

1. The scheme and syllabus of 3rd and 4th semester of B.Tech (Mech), B.Tech (Prod) were finalized. (Annexure-1). The revised schemes shall be applicable for 2011 admission batches.

2. The revised schemes for 5th semester onwards for B.Tech (Mech) and B.Tech (Prod) have also been finalized (Annexure-1). As regards to revision and modification of the contents of syllabii for various subjects following duties have been assigned:

Mech Engg

Machine Design I and II, Mechanical Vibration- Dr. S.S Jolly and Dr. R.K Awasthi
Industrial Automation and Robotics- Dr.R.S Bhatti
Fluid Machinery, Heat transfer, Ref. and air conditioning- Dr. P.S Bilga
Mech Measurement and Metrology- Dr. Dilbag Singh
Numerical methods in Engg, Industrial Engg. and management- Dr. Sehijpal Singh
CAD and CAM- Pardeep Jindal

Prod Engg

Jig fixture and Tool design, Non Traditional Machining Metal Forming, Operations Research, Machining science, Tool and cutter design, Machine Tool design- Dr Sehijpal Singh and Prof J.S Grewal

Welding tech Engg metrology, Inspection. Quality Control- Dr Balwinder singh

CIM- Pardeep Jindal

3. As regards to equivalence of a degree of a foreign University (UK) for admission into M.tech of PTU, It is observed that there is lot of difference in the number of subjects and their contents. This degree cannot be considered equivalent to that of PTU degree.

4. In reference to letter No PTU/DA/4625 dated 21/2/2012 regarding the equivalence of syllabus of a course Automated Systems and Robotics of Dunwoody College of Engineering, Minneapolis with that of B.Tech 1st year of PTU, it is observed that due to missing of major subjects like Engg Drawing, Physics, Chemistry and Human value and ethics, the course cannot be considered as equivalent to that of 1st year B.Tech of PTU to get admission in 2nd year.

5. The course B.tech Automation and Robotics Engg. Following comments must be incorporated in 3rd and 4th sem .

   A) Subject BTAR 209 & 211 in the 3rd semester looks out of place for a specific B.Tech course like Automation & Robotics.

   B) Right from 3rd semester onwards the courses looks more oriented for towards electronics, which gives it a CONTROL focus. The DESIGN focus looks slightly removed. For instance, the subject of EDLC (BTAR 213), EMI (BTAR205), EDDC (BTAR 203) in 3rd semester look one focused. It would be better if 3rd semester has basic course on TOM, or on Automation (in MFG).

   C) BTAR 208 in 4th semester may be shifted to the 3rd semester.

      Even BTAR 218 should go to the 3rd semester. These con be interchanged with BTAR 205 & BTAR 203.

   D) BTAR-314 & BTME-103 look reptetive . It is desirable that BTAR314 have a SIMULATION focus rather than a CADD focus (because this is not B.Tech in M.Tech or Electronic Engg.)

   E) Experts who have originally designed this curriculum may be invited for a joint session with the undersigned for clarification about other semester also.
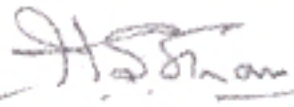

The revised scheme in the light of above mentioned comments should be put up to BOS for final approval

For rest of the scheme, another meeting of BOS with representative of the concerned institution is required.

- The board very patiently listened to the representation of CDAC, Mohali on the **eligibility** of M.Tech- CSE(Cyber Security) and M.tech (Artificial Intelligence) and after deep deliberations it was revised as below:

  B.E. / B. Tech. (CSE/ IT/ Software Engg./ Computer Engg./ Software Systems/ Information Security/ Cyber Security/ Computational Engg./ Machine learning/ IoT/ Data Science) with atleast 50% (45% in case of candidate belonging to reserved category).

  <div align="center">OR</div>

  B.E./ B.Tech in any stream as Major along with Minor degree in CSE.

  <div align="center">OR</div>

  B.Tech. in any relevant/ appropriate branch of CSE as mentioned in the AICTE regulations, from time to time, under *" Major Branches of Engineering / Technology and their relevant / appropriate branch of UG degree in Engineering / Technology".*

  The board maintained its opinion, as delivered in the last BoS meeting held on 16th june 2021, that though CDAC, is requesting to include Electronics and other relevant branches as eligibility, but same can not been considered keeping in line with the GATE, national level entrance exam, eligibility for M.Tech- CSE. Also it was focused that the core courses required for M.Tech(CSE) , particularly specialized programs as Artificial Intelligence and Cyber Secuirty, as a prerequisite are not included in B.Tech programs of Electronics and related streams from all institutes.

  Further, eligibility of M.Tech(CSE) of IKGPTU is similar to above and does not include B. Tech(Electronics and related fields) as eligibility.

- The board discussed on the requests received from the students, through mail, on the inclusion of Programming in Python as an elective option in the 5th sem. in the scheme of **B.Tech (Computer Engg.) 2019 onwards.**

  The board approved the same.

  The revised scheme and syllabus is enclosed along the MoM.

- The board proposed the list of Electives for B.tech- CoE and B.Tech- SE and decided to discuss details based on drafts in the next BoS meet.

  The meeting ended with a vote of thanks. Due to online mode of meeting the MoM and other documents will be signed in hard copy at a later stage (Acceptance taken through mail may please be accepted).

The Board took the agenda and following decisions were taken:

- The members deliberated on the scheme and detailed syllabus of **B.Tech-CSE, university campuses batch 2018** and finalized the same. The board proposed the revoke of semester courses, against 7th /8th semester training and suggested that the semester training can be offered at the institute level also for projects under learned faculty of university campuses, as per possibilities, along with the already prescribed forms, from time to time, of Industrial semester training.

  Further, the list of OPEN ELECTIVES can also be covered through MOOCs of Swayam/ NPTEL courses of 12 weeks along with certification. The list of these MOOCs will be provided by MOOCs coordinator of the institute, duly approved by the Chairperson of the BoS, as applicable from time to time. It is pertinent to mention that students can also opt for open electives offered by other departments of the institute.

  The scheme and syllabus, B.TECH – CSE 2018, university campuses, is enclosed with the MoM.

  For the batch 2019, B.Tech- CSE 5th semester, University campuses, the syllabus will remain same as to what is proposed and finalized for all other campuses.

  The scheme and syllabus, B.TECH – CSE 2019, university campuses, is enclosed with the MoM.

- The board discussed on the scheme of **B.Tech(Software Engg.) 2019 onwards** and finalized the same.

  The detailed syllabus of 5th semester was approved.

  The scheme and syllabus is enclosed with the MoM

- The members also reached on the consent that for all the New B.Tech – CSE specialized programs, started w.e.f. July 2020,as mentioned in agenda item no. 4, the scheme and syllabus will remain same as that of B.Tech –CSE, 2018 onwards scheme and syllabus till 4th semester. Further, from the 5th semester onwards the scheme will remain the same along with the list of all core courses mentioned, only the list of electives will be varied and provided specific to the specialized program.

Based on the above decision the scheme and syllabus till 4th semester for B.tech- CSE (AI & ML), B.tech-CSE(Data Science), B.tech- CSE (IoT& Cyber security including BlockChain Technology) 2020 batch onwards, is enclosed with the MoM

  The board was of the opinion that though CDAC, where these programs are being run, is requesting to include Electronics and other relevant branches as eligibility, but same can not been considered keeping in line with the GATE entrance exam eligibility for M.Tech- CSE. It is reinforced here that GATE, is national level M.Tech entrance exam.
  Also it was focused that the core courses required for M.Tech(CSE) , particularly specialized programs as Artificial Intelligence and Cyber Secuirty, as a prerequisite are not included in B.Tech programs other than included above.

Dear Dr. Anshu Bhasin,

I have one observation regarding specialized B.Tech courses.

As we are now making a uniformity in the curriculum of semester 1 to 4 for all of these specialized courses, we can make it open to choose among C++/ java/Python for the implementation of OOP and Data Structures subjects depending upon the requirements of that particular specialized course or student choice.

Rest of the things seem fine to me and approved from my side.

Best wishes
