### **Department Wise List of Courses Which Address the Gender, Environment and Sustainability, Human Values and Professional Ethics into the Curriculum**

1.3.1

## Department of Chemical Sciences

1.3.1

***1.3.1 Institution integrates cross cutting issues relevant to Gender, Environment and, Human Values and Professional ethics into Curriculum***

Description in 500 words was required as per the NAAC Criterion. Department of Chemical science has introduced Environment science in undergraduate course. Another course is Environmental Chemistry in Postgraduate course.

The course in Department of Chemical Science aim at developing social responsibility of the students towards their environment. Basic objective of this course is to sensitize, motivate and self-responsible to the environmental issues at local and global level, their problems and mitigating measures so that they can be aware scientifically and can sensitize others.

The curriculum of this course is designed in such a way in which students have to study Environment science separately which sensitize them and motivate in creating awareness about global environment issues. Another course on Environment chemistry makes students to understand chemistry behind various Environmental processes. Also, to understand the chemistry of Environment problems of pollution like how they occur and solved using different scientific techniques.

Topics like human values, women empowerment, drugs, equality and child labour etc. form the themes are taken and taught them to cover such sensitive issues keeping in mind the professional ethics. Communication and Computer skills have also been incorporated in all Programs and due credits are given for these courses.

Research students in department are encouraged to work on Environmental problem of the society.

1.3.1

## Department of Civil Engineering

### 1.3.1 Institution integrates cross cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

The University integrates Cross-cutting issues of the society like Moral Values, Human Values, Professional Ethics, Ethical Values Gender Equality, Environmental Awareness, which are inseparable part of our curriculum. Moral Values, Human Values & Professional Ethics Twenty one days Induction programme related to values and ethics is an integral part of the curriculum of the first year. The compulsory course "Mentoring and professional development" is there for 2nd year. The course "Training" is professional skill enhancement course of third year. Students will be able to understand the importance of ethics and values in their personal, social & professional life after studying these courses. University's Civil Engineering Department provides free environment for inculcating values and developing ethical competence among the students based on their subjects related to Concrete design, Structure Engineering, Concrete Technology, Earthquake Engineering and Construction Engineering and management leading to innovation in it. Environment sustainability, Environment Engg, Geo Environment, Sustainable Construction Methods, Environment Impact Assessment (EIA) and LCA plays vital role before and after life in the construction of buildings, dams, expressways & infrastructure projects for the 21st Century. Importance of interdisciplinary approach in Engineering to correlate the human population growth and its trend to the environmental degradation and develop the awareness about his/her role towards environmental protection and prevention It is in response to a long- felt and urgent need to integrate value education with decision making skills in their personal, social and professional life. University celebrates days of National and International importance as Republic day, Women's day, Independence Day, Teacher's day, Human Right Day, International Yoga Day etc. These celebrations nurture the moral, ethical and social values in the students.

**Environment & Ecology** The course "Environment Science" related to ecosystem, its balance & sustainability is an integral part of the curriculum of the second year for all branches of Engineering and Sciences courses at UG level. University prescribed this course for creating awareness and developing importance of environment among students. Awareness about Environment is necessary for the protection of the environment and survival of human life. The basic aim of this subject is to make the students aware about the importance of ecosystem to human life. The University has an integrated rain water harvesting System along with Sewage Treatment Plant. The waste water is reused for gardening in the university campus. University celebrates the day of National importance as Earth day, Environment day. The college organizes workshop/ seminars on Environment & Ecology to make students aware about efficient use of natural resources.

**Moral Values, Human Values & Professional Ethics:** Twenty one days Induction programme related to values and ethics is an integral part of the curriculum of the all first year students. Organisational Behaviour, Professional ethics and law has been introduced the students of Civil Engineering necessary for getting, keeping and being successful in a profession. To Develop Project Management aspect and Entrepreneurship Skills they are being offered two full subjects of 3 and 2 credits respectively.

86

The compulsory course "Universal Human values & Professional Ethics" for 2nd year & open elective course "Understanding the Human Being Comprehensively-Human Aspirations and Its Fulfilment" for the final year are important part of Curriculum. The common course "Industrial Sociology" and Industrial Psychology are basic part of curriculum of third year. Students will be able to understand the importance of ethics and values in their personal, social & professional life after studying these courses. These subjects provide free environment for inculcating values and developing ethical competence among the students. It is in response to a long- felt and urgent need to integrate value education with decision making skills in their personal, social and professional life. College celebrates days of National and International importance as Republic day, Women's day, Independence Day, Teacher's day, Human Right Day, International Yoga Day etc. These celebrations nurture the moral, ethical and social values in the students.

S. No.	Category	Code	Course Title	Hours per week			Credits
				L	T	P	
6	Mandatory Courses (Non Credit)	EVS-101-18	<b>Envrionmental Science</b>	2	0	0	0

**\* 40 Hours are kept for various activities under the head of activities. There will be a final theory examination for the students of 50 marks but these marks will not be added to their final result as assessment will be satisfactory or non-satisfactory**

We as human being are not an entity separate from the environment around us rather we are a constituent seamlessly integrated and co-exist with the environment around us. We are not an entity so separate from the environment that we can think of mastering and controlling it rather we must understand that each and every action of ours reflects on the environment and vice versa. Ancient wisdom drawn from Vedas about environment and its sustenance reflects these ethos. There is a direct application of this wisdom even in modern times. Idea of an activity based course on environment protection is to sensitize the students

### Course Outcomes:

1. Students will enable to understand environmental problems at local and national level through literature and general awareness.
2. The students will gain practical knowledge by visiting wildlife areas, environmental institutes and various personalities who have done practical work on various environmental Issues.
3. The students will apply interdisciplinary approach to understand key environmental issues and critically analyze them to explore the possibilities to mitigate these problems.
4. Reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world.

### Detailed Contents

Unit- I : Natural Resources :Renewable and non-renewable resources

Natural resources and associated problems. Forest resources : Use and over-exploitation, deforestation, case studies. Timber extraction, mining, dams and their effects on forest and tribal people. Water resources : Use and over-utilization of surface and ground water, floods, drought, conflicts over water, dams-benefits and problems. Mineral resources : Use and exploitation, environmental effects of extracting and using mineral resources, case studies. Food resources : World food problems, changes caused by agriculture and overgrazing, effects of modern agriculture, fertilizer-pesticide problems, water logging, salinity, case studies. Energy resources : Growing energy needs, renewable and non renewable energy sources, use of alternate energy sources. Case studies. Land resources : Land as a resource, land degradation, man induced landslides, soil erosion and desertification., Role of an individual in conservation of natural resources, Equitable use of resources for sustainable lifestyles.

Unit-II : Ecosystems : Concept of an ecosystem, Structure and function of an ecosystem, Food chains, food webs and ecological pyramids. Introduction, types, characteristic features, structure and function of following ecosystems: a. Forest ecosystem b. Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries)

Unit-III : Biodiversity and its conservation : Introduction – Definition : genetic, species and ecosystem diversity, Biodiversity at global, National and local levels, India as a mega-diversity nation, Hot-spots of biodiversity, Threats to biodiversity : habitat loss, poaching of wildlife, man-wildlife conflicts, Endangered and endemic species of India

Unit-IV : Social Issues and the Environment : From Unsustainable to Sustainable development, Resettlement and rehabilitation of people; its problems and concerns., Environmental ethics : Issues and possible solutions, Climate change, global warming, acid rain, ozone layer depletion, Nuclear accidents and holocaust, Case Studies, Public awareness.

### \*ACTIVITIES

66

**Study Scheme and Syllabus of B. Tech Civil Engineering, Batch 2018 onwards**  
**Board of Studies – Civil and Environmental Science, IKGPTU Main & Constituent Campuses**

S. No.	Category	Code	Course Title	Hours per week			Credits
				L	T	P	
5	Professional Core courses	BTCE-405-18	<b>Disaster Preparedness &amp; Planning</b>	3	0	0	3

External Marks: 60, Internal Marks: 40, Total Marks: 100

**Course Outcomes**

After completing this course the student must demonstrate the knowledge and ability to:

1. Identify various types of disasters, their causes, effects & mitigation measures.
2. Demonstrate the understanding of various phases of disaster management cycle and create vulnerability and risk maps.
3. Understand the use of emergency management system to tackle the problems.
4. Discuss the role of media, various agencies and organisations for effective disaster management.
5. Design early warning system and understand the utilization of advanced technologies in disaster management.
6. Compare different models for disaster management and plan & design of infrastructure for effective disaster management.

**Content**

**Unit I: Introduction to Disaster Management:** Define and describe disaster, hazard, vulnerability, risk-severity, frequency and details, capacity, impact, prevention, mitigation.

**Disasters:** Identify and describe the types of natural and manmade disasters, hazard and vulnerability profile of India, mountain and coastal areas, Factors affecting vulnerability such as impact of development projects and environment modifications (including dams, land-use changes, urbanization etc.), Disaster impacts (environmental, physical, social, ecological, economic etc.); health, psycho-social issues; demographic aspects (gender, age, special needs), Lessons and experiences from important disasters with specific reference to civil engineering.

**Unit II :Disaster Mitigation and Preparedness:** Disaster Management Cycle-its phases; prevention, mitigation, preparedness, relief and recovery; structural and non structural measures; Preparedness for natural disasters in urban areas.

**Risk Assessment:** Assessment of capacity, vulnerability and risk, vulnerability and risk mapping, stages in disaster recovery and associated problems; Use of Remote Sensing Systems (RSS) and GIS in disaster Management, early warning systems.

**Unit III : Post disaster response:** Emergency medical and public health services; Environmental post disaster response (water, sanitation, food safety, waste management, disease control, security, communications); reconstruction and rehabilitation; Roles and responsibilities of government, community, local institutions, role of agencies like NDMA, SDMA and other International agencies, organizational structure, role of insurance sector, DM act and NDMA guidelines.

**Unit IV: Integration of public policy:** Planning and design of infrastructure for disaster management, Community based approach in disaster management, methods for effective dissemination of information, ecological and sustainable development models for disaster management.

**Board of Studies – Civil and Environmental Science, IKGPTU Main & Constituent Campuses**

Fifth Semester							
S. No.	Category	Code	Course Title	Hours per week			Credits
				L	T	P	
2	Professional Core courses	BTCE-502-18	Elements of Earthquake Engineering	3	0	0	3

External Marks: 60, Internal Marks: 40, Total Marks: 100

**Course Outcome**

The course will enable the students to:

- Understand the phenomenon of occurrence and history of earthquakes and classify their kinds and effects.
- Appreciate the role of earthquake forces in structural design of building.
- Evaluate and analyze Degree of Freedom, Spring action, Damping, Equations of motions, Lateral Force analysis, Floor Diaphragm action, Moment resisting frames and Shear walls.
- Apply various codal provisions related to seismic design of buildings.
- Acquire new basic knowledge in earthquake engineering

**Content**

Unit 1: Introduction to Earthquakes, Causes of Earthquakes, Basic Terminology, Magnitude, Intensity, Peak ground motion parameters.

Unit 2: Past Earthquakes and Lessons learnt, Various Types of Damages to Buildings.

Unit 3: Introduction to theory of Vibrations, Sources of Vibrations, Types of Vibrations, Degree of Freedom, Spring action and damping, Equation of motion of S.D.O.F. systems, Undamped, Damped system subjected to transient forces, general solution, green's function.

Unit 4: Lateral Force analysis, Floor Diaphragm action, moment resisting frames, shear walls.

Unit 5: Concepts of seismic design, Lateral Strength, Stiffness, ductility and structural configuration.

Unit 6: Introduction to provisions of IS 1893-2002 Part-I for buildings. Estimation of lateral forces due to earthquake.

Unit 7: Introduction to provisions of IS 4326.

Unit 8: Introduction to provision of IS 13920.

Fifth Semester							
S. No.	Category	Code	Course Title	Hours per week			Credits
				L	T	P	
4	Professional Core courses	BTCE-504-18	Environmental Engineering	4	0	4	Professional Core

External Marks: 60, Internal Marks: 40, Total Marks: 100

**Course Outcome**

The course will enable the students to:

- Understand the impact of humans on environment and environment on humans
- Be able to identify and value the effect of the pollutants on the environment: atmosphere, water and soil.
- Be able to plan strategies to control, reduce and monitor pollution.
- Be able to select the most appropriate technique for the treatment of water, wastewater, solid waste and contaminated air.
- Be conversant with basic environmental legislation.

**Contents**

**Unit1: Water:** -Sources of Water and quality issues, water quality requirement for different beneficial uses, Water quality standards, water quality indices, water safety plans, Water Supply systems, Need for planned water supply schemes, Water demand industrial and agricultural water requirements, Components of water supply system; Transmission of water, Distribution system, Various valves used in W/S systems, service reservoirs and design. *Water Treatment:* aeration, sedimentation, coagulation flocculation, filtration, disinfection, advanced treatments like adsorption, ion exchange, membrane processes

**Unit 2: Sewage-** Domestic and Storm water, Quantity of Sewage, Sewage flow variations. Conveyance of sewage- Sewers, shapes design parameters, operation and maintenance of sewers, Sewage pumping; Sewerage, Sewer appurtenances, Design of sewerage systems. Small bore systems, Storm Water- Quantification and design of Storm water; Sewage and Sullage, Pollution due to improper disposal of sewage, Wastewater treatment, aerobic and anaerobic treatment systems, suspended and attached growth systems, recycling of sewage – quality requirements for various purposes.

**Unit 3: Air** - Composition and properties of air, Quantification of air pollutants, Monitoring of air pollutants, Air pollution- Occupational hazards, Urban air pollution automobile pollution, Air quality standards, Control measures for Air pollution

**Unit 4: Noise-** Basic concept, measurement and various control methods.

**Unit 5: Solid waste management-** Municipal solid waste, Composition and various chemical and physical parameters of MSW, MSW management: Collection, transport, treatment and disposal of MSW. Special MSW: waste from commercial establishments and other urban areas, solid waste from construction activities, biomedical wastes, Effects of solid waste on environment: effects on air, soil, water surface and ground health hazards. Disposal of solid waste-segregation, reduction at source, recovery and recycle. Disposal methods- Integrated solid waste management.

**Unit 6: Building Plumbing-** Introduction to various types of home plumbing systems for water supply and waste water disposal, high rise building plumbing, Storage tanks, Building drainage for high rise buildings, various kinds of fixtures and fittings used.

Seventh/Eight Semester							
S. No.	Category	Code	Course Title	Hours per			Credits
				L	T	P	
6	Professional Core courses	HSMC -255	Professional Practice, Law & Ethics	2	0	0	2

Basic elements of civil engineering professional practice are introduced in this course. Roles of all participants in the process-owners, developers, designers, consultants, architects, contractors, and suppliers - are described. Basic concepts in professional practice, business management, public policy, leadership, and professional licensure are introduced. The course covers professional relations, civic responsibilities, and ethical obligations for engineering practice. The course also describes contracts management, and various legal aspects related to engineering. Further, the course familiarizes students with elementary knowledge of laws that would be of utility in their profession, including several new areas of law such as IPR, ADR.

**The course is designed to address the following:**

- To make the students understand the types of roles they are expected to play in the society as practitioners of the civil engineering profession
- To develop some ideas of the legal and practical aspects of their profession

**UNIT 1. Professional Ethics** – Definition of Ethics, Professional Ethics, Business Ethics, Corporate Ethics, Engineering Ethics, Personal Ethics; Code of Ethics as defined in the website of Institution of Engineers (India); Profession, Professionalism, Professional Responsibility, Professional Ethics; Conflict of Interest, Gift Vs Bribery, Environmental breaches, Negligence, Deficiencies in state-of-the-art; Vigil Mechanism, Whistleblowing, protected disclosures.

**UNIT 2: General Principles of Contracts Management: Indian Contract Act, 1972 and amendments** covering General principles of contracting; Contract Formation & Law; Privacy of contract; Various types of contract and their features; Valid & Voidable Contracts; Prime and sub-contracts; Joint Ventures & Consortium; Complex contract terminology; Tenders, Request For Proposals, Bids & Proposals; Bid Evaluation; Contract Conditions & Specifications; Critical / "Red Flag" conditions; Contract award & Notice To Proceed; Variations & Changes in Contracts; Differing site conditions; Cost escalation; Delays, Suspensions & Terminations; Time extensions & Force Majeure; Delay Analysis; Liquidated damages & Penalties; Insurance & Taxation; Performance and Excusable Non-performance; Contract documentation; Contract Notices; Wrong practices in contracting (Bid shopping, Bid fixing, Cartels); Reverse auction; Case Studies; Build-Own-Operate & variations; Public-Private Partnerships; International Commercial Terms;

**UNIT 3 : Arbitration, Conciliation and ADR (Alternative Dispute Resolution) system:** Arbitration – meaning, scope and types – distinction between laws of 1940 and 1996; UNCITRAL model law – Arbitration and expert determination; Extent of judicial intervention; International commercial arbitration; Arbitration agreements – essential and kinds, validity, reference and interim measures by court; Arbitration tribunal – appointment, challenge, jurisdiction of arbitral tribunal, powers, grounds of challenge, procedure and court assistance; Award including Form and content, Grounds for setting aside an award, Enforcement, Appeal and Revision; Enforcement of foreign awards – New York and Geneva Convention Awards; Distinction between conciliation, negotiation, mediation and arbitration, confidentiality, resort to judicial proceedings, costs; Dispute Resolution Boards; Lok Adalats.

1.3.1

## Department of Computer Science Engineering

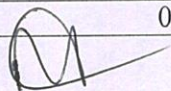

## The Department of Computer Science and Engineering

- The university has been working for the overall development of the students. Various courses, namely, Human values and Professional Ethics, Environmental Studies have been introduced as mandatory courses for all programmes of engineering to address issues as Gender Equality, Sustainability, Human Values and Ethics.
- Courses on Disaster management, Non-Conventional energy resources etc, are offered as open electives. These courses help students gain a worldview of the self, society and profession. It emphasizes on holistic understanding of ethical human conduct, trustful and mutually satisfying human behaviour.
- The university also conducts Blood Donation Camps to promote National Integrity, Human values, Communal Harmony.
- Environment and Sustainability Environmental Studies is an interdisciplinary course. The course is offered as a mandatory course for all the U.G programs. The course includes the study of natural resources with emphasis on renewable energy resources, the importance of conserving the present ecosystem, promoting biodiversity, perils of environmental pollution and raising awareness on environmental and social issues.
- A course on “Non-conventional Energy sources” is offered to explain the generation of electricity from various non-conventional sources of energy such as solar, wind, ocean and geothermal energies.
- Guest lectures on Environment and Human Ethics are organized in the departments to aware students about the Conservation of environment and develop ethical morals in them.
- International Women’s Day is celebrated every year with active student participation. Also, special talks are arranged to encourage women to explore opportunities in science and technology. The student counsellor counsels’ students on gender equality and other related issues.

The subjects relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability are integral part of university curriculum. Details of these subjects is as follows:

Sr. No	Subject Name	Semester	Teaching load per week (Hrs)
1	Mentoring and Professional Development	1 <sup>st</sup>	02
2	Mentoring and Professional Development	2 <sup>nd</sup>	02
3	Foundation Course in Humanities (Development of Societies/Philosophy)	3 <sup>rd</sup>	03
4	Universal Human Values 2	4 <sup>th</sup>	03
5	Environmental Sciences	4 <sup>th</sup>	03

## Department of Electrical Engineering

I.K.GUJRAL PUNJAB TECHNICAL UNIVERSITY, KAPURTHALA  
MAIN CAMPUS

Department of Electrical Engineering

Sub: Annexure 1.3.1

*Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum*

In the B. Tech Electrical Engineering Programme the mandatory courses are part of approved scheme and syllabus and details are as:

BTMC- XXX-18 Mandatory Course (BTMC-101-18 or BTMC102-18)

**MANDATORY COURSES (Non-Credit Courses)**

BTMC-101-18 Indian Constitution 3L:0T:0P

BTMC-102-18 Essence of Indian Traditional Knowledge 3L:0T:0P

EVS 101-18 Environmental Studies 2L:0T:0P

The integration of environmental sciences into the engineering under graduate program is to address the issues related to environment may be caused by adverse effects of advanced application of engineering and sciences. Through this course students got the understanding of value of safe environment and moral duty to protect the environment.

L

<b>BTMC-101-18</b>	<b>Indian Constitution</b>	<b>3L:0T:0P</b>	<b>0 credits</b>
Internal Marks: 40 External Marks: 60 Total Marks: 100			

The Constitution of India is the supreme law of India. Parliament of India cannot make any law which violates the Fundamental Rights enumerated under the Part III of the Constitution. The Parliament of India has been empowered to amend the Constitution under Article 368, however, it cannot use this power to change the “basic structure” of the constitution, which has been ruled and explained by the Supreme Court of India in its historical judgments. The Constitution of India reflects the idea of “Constitutionalism” – a modern and progressive concept historically developed by the thinkers of “liberalism” – an ideology which has been recognized as one of the most popular political ideology and result of historical struggles against arbitrary use of sovereign power by state. The historic revolutions in France, England, America and particularly European Renaissance and Reformation movement have resulted into progressive legal reforms in the form of “constitutionalism” in many countries. The Constitution of India was made by borrowing models and principles from many countries including United Kingdom and America.

The Constitution of India is not only a legal document but it also reflects social, political and economic perspectives of the Indian Society. It reflects India’s legacy of “diversity”. It has been said that Indian constitution reflects ideals of its freedom movement, however, few critics have argued that it does not truly incorporate our own

ancient legal heritage and cultural values. No law can be “static” and therefore the Constitution of India has also been amended more than one hundred times. These amendments reflect political, social and economic developments since the year 1950. The Indian judiciary and particularly the Supreme Court of India has played an historic role as the guardian of people. It has been protecting not only basic ideals of the Constitution but also strengthened the same through progressive interpretations of the text of the Constitution. The judicial activism of the Supreme Court of India and its historic contributions has been recognized throughout the world and it gradually made it “as one of the strongest court in the world”.

#### Course content

- 1 Meaning of the constitution law and constitutionalism
- 2 Historical perspective of the Constitution of India
- 3 Salient features and characteristics of the Constitution of India
- 4 Scheme of the fundamental rights
- 5 The scheme of the Fundamental Duties and its legal status
- 6 The Directive Principles of State Policy – Its importance and implementation
- 7 Federal structure and distribution of legislative and financial powers between the Union and the States
- 8 Parliamentary Form of Government in India – The constitution powers and status of the President of India
- 9 Amendment of the Constitutional Powers and Procedure
- 10 The historical perspectives of the constitutional amendments in India
- 11 Emergency Provisions : National Emergency, President Rule, Financial Emergency

- 12 Local Self Government – Constitutional Scheme in India
- 13 Scheme of the Fundamental Right to Equality
- 14 Scheme of the Fundamental Right to certain Freedom under Article 19
- 15 Scope of the Right to Life and Personal Liberty under Article 21

**Objectives:** The objective of the course is to provide the basic knowledge about the Political System of the Country. The basic idea is to make the students aware of their duties and rights. Apart from it the course will aim to educate the pupils about the working of different organs of the government, various constitutional bodies and the agencies of the government. In addition to it, students will be given brief knowledge regarding the different challenges of Indian Political System, forms of Government in India and nature & dimensions of Indian Federal System.

**Course Pedagogy:** Since the course is of Practical Importance, it is recommended that during the course students will be taken out for one visit to any place with the potential of imparting practical knowledge to the students about the Indian Political System. Such places can be Indian Parliament, State Legislative Assembly, Youth Parliament Pune. It is expected that students should be given case studies about the Indian Political System and Debates on Constitutional Issues should be organised in the campus.

**Course Outcome:** After the successful completion of the course students will be to understand the different dimensions of Indian Political System. They will be aware about their duties towards the fellow citizens. Students will be able to challenges of the democratic institutions and theoretical aspects of the state and its organs.

**Suggested Reading:**

1. Indian Political System by J C Johri
2. Indian Political System by Mahendra Prasad Singh
3. Fundamentals of Indian Political System by Rajesh K. Jha
4. Our Constitution by Subhash C Kashyap
5. Our Political System by Subhash C Kashyap
6. Indian Federalism – An Introduction by Mahendra Prasad Singh
7. Indian Federalism and Autonomy by S Chandrasekhar

<b>BTMC-102-18</b>	<b>Essence of Indian Traditional Knowledge</b>	<b>3L:0T:0P</b>	<b>0 credits</b>
<i>Internal Marks: 40    External Marks: 60    Total Marks: 100</i>			

### **Part-1**

#### **Course objective**

The course aims at imparting basis principals of thought process. Reasoning and inferencing Sustainability is at the core of Indian Traditional Knowledge Systems connecting society and nature. Holistic life style of yogic science and wisdom capsules in Sanskrit Literature are also important in modern society with rapid technological advancements and societal disruptions Part-1 focuses on introduction to Indian Knowledge System. Indian perspective of modern scientific world -view and basis principal of Yoga and holistic health care system.

#### **Course contents**

- Basic Structure of Indian Knowledge system
- Modern Science and Indian Knowledge system
- Yoga and Holistic Health Care
- Case studies

#### **References**

- Fritzo Capra Too of Physics
- Fritzo Capra The Wave of life
- Yoga Sutra of Patanjali. Ramakrishna Mission. Kolkata.

- PB Sharma (English translation) Shodashang Hridayam

**Pedagogy:** Problem based learning, group discussion, collaborative mini projects

**Outcome:** Ability to understand connect up and explain basics of Indian traditional Knowledge in Modern scientific perspective.

### **Part-2**

#### **Course objective**

The course aims at imparting basis principals of thought process. Reasoning and inferencing Sustainability is at the core of Indian Traditional Knowledge Systems connecting society and nature. Holistic life style of yogic science and wisdom capsules in Sanskrit Literature are also important in modern society with rapid technological advancements and societal disruptions Part-2 focuses on Indian philosophical traditions. Indian linguistic Tradition, and Indian artistic tradition.

#### **Course contents**

- Philosophical Tradition
- Indian Linguistic Tradition (Phonology, morphology, syntax and semantics)
- Indian Artistic Tradition
- Case studies

#### **References**

Kapurthala-141005

5

<b>EVS-101-18</b>	<b>Environmental Studies</b>	<b>2L:0T:0P (Contact hours 21)</b>	<b>0 credits</b>
-------------------	------------------------------	------------------------------------	------------------

\* 40 Hours are kept for various activities under the head of activities. There will be a final theory examination for the students of 50 marks but these marks will not be added to their final result as assessment will be satisfactory or non-satisfactory.

**Course Outcomes:**

- CO 1** Students will enable to understand environmental problems at local and national level through literature and general awareness.
- CO 2** The students will gain practical knowledge by visiting wildlife areas, environmental institutes and various personalities who have done practical work on various environmental Issues.
- CO 3** The students will apply interdisciplinary approach to understand key environmental issues and critically analyze them to explore the possibilities to mitigate these problems.
- CO 4** Reflect critically about their roles and identities as citizens, consumers and environmental actors in a complex, interconnected world

**Environment Science (Mandatory non-credit course)**

We as human being are not an entity separate from the environment around us rather we are a constituent seamlessly integrated and co-exist with the environment around us. We are not an entity so separate from the environment that we can think of mastering and controlling it rather we must understand that each and every action of ours reflects on the environment and vice versa. Ancient wisdom drawn from Vedas about environment and its sustenance reflects these ethos. There is a direct application of this wisdom even in modern times. Idea of an activity based course on environment protection is to sensitize the students.

**Detailed Contents**

**Module 1: Natural Resources : Renewable and non-renewable resources**

Natural resources and associated problems.

- Forest resources: Use and over-exploitation, deforestation, case studies. Timber extraction, mining, dams and their effects on forest and tribal people.
- Water resources: Use and over-utilization of surface and ground water, floods, drought, conflicts over water, dams-benefits and problems.
- Mineral resources: Use and exploitation, environmental effects of extracting and using mineral resources, case studies.
- Food resources: World food problems, changes caused by agriculture and overgrazing, effects of modern agriculture, fertilizer-pesticide problems, water logging, salinity, case studies.
- Energy resources: Growing energy needs, renewable and non-renewable energy sources, use of alternate energy sources. Case studies.
- Land resources: Land as a resource, land degradation, man induced landslides, soil erosion and desertification.
  - Role of an individual in conservation of natural resources.
  - Equitable use of resources for sustainable lifestyles.

**Module 2: Ecosystems**

Concept of an ecosystem. Structure and function of an ecosystem.

Board of Studies (Electrical Engineering) Main Campus and Constituent Campuses  
21<sup>st</sup> May, 2020  
IKG Punjab Technical University

  
Head  
Department of Electrical Engineering  
I.K. Gujral Punjab Technical University  
Kapurthala-144006

Food chains, food webs and ecological pyramids. Introduction, types, characteristic features, structure and function of following ecosystems:

- a) Forest ecosystem
- b) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries)

### **Module 3 : Biodiversity and its conservation**

- Introduction – Definition: genetic, species and ecosystem diversity.
- Biodiversity at global, National and local levels.
- India as a mega-diversity nation
- Hot-spots of biodiversity.
- Threats to biodiversity: habitat loss, poaching of wildlife, man-wildlife conflicts.
- Endangered and endemic species of India

### **Module 4 : Social Issues and the Environment**

- From Unsustainable to Sustainable development
- Resettlement and rehabilitation of people; its problems and concerns.
- Environmental ethics: Issues and possible solutions.
- Climate change, global warming, acid rain, ozone layer depletion,
- Nuclear accidents and holocaust. Case Studies.
- Public awareness.

### **\*ACTIVITIES**

**Nature club** (bird watching, recognizing plants at institute/at home, recognizing local animals, appreciating biodiversity)

Impart knowledge and inculcate the habit of taking interest and understanding biodiversity in and around the college campus. The students should be encouraged to take interest in bird watching, recognizing local plants, herbs and local animals. The students should be encouraged to appreciate the difference in the local biodiversity in their hometown, in the place of their study and other places they visit for vacation/breaks etc.

Following activities must be included.

Identify a tree fruit flower peculiar to a place or having origin from the place.

Making high resolution big photographs of small creatures (bees, spiders, ants, Mosquitos etc.) especially part of body so that people can recognize (games on recognizing animals/plants).

Videography/ photography/ information collections on specialties/unique features of different types of common creatures.

Search and explore patents and rights related to animals, trees etc. Studying miracles of mechanisms of different body systems.

#### **(A) Awareness Activities:**

- a) Small group meetings about water management, promotion of recycle use, generation of less waste, avoiding electricity waste
- b) Slogan making event
- c) Poster making event
- d) Cycle rally
- e) Lectures from experts
- f) Plantation
- g) Gifting a tree to see its full growth
- h) Cleanliness drive

- i) To live with some eminent environmentalist for a week or so to understand his work.
- j) To work in kitchen garden for mess
- k) To know about the different varieties of plants
- l) Shutting down the fans and ACs of the campus for an hour or so
- m) Visit to a local area to document environmental assets  
river/forest/grassland/hill/mountain/lake/Estuary/Wetlands
- n) Visit to a local polluted site-Urban/Rural/Industrial/Agricultural
- o) Visit to a Wildlife sanctuary, National Park or Biosphere Reserve

## I.K. Gujral Punjab Technical University

The Minutes of meeting of BoS (Journalism & Mass Communication) was held in the conference hall of G3 building, Second Floor, IKGPTU at 10:00 am on 29-03-2019.

The following members were present in the meeting:

1. Dr. Ranbir Singh (Chairman BoS), I.K. Gujral Punjab Technical University, Kapurthala
2. Prof. Dr. Vir Bala Aggarwal, HPU Shimla.
3. Prof. (Dr.) Navjit Singh Johal, Punjabi University, Patiala
4. Prof. (Dr.) K. S. Duggal, GNDU Regional Campus, Jalandhar.
5. Dr. Bindu Sharma, Associate Prof. Kurushetra University, Kurushetra.
6. Dr. Namarta Joshi, Associate Prof. & Head GNDU Regional Campus, Jalandhar
7. Dr. Sarabjit Singh, AP, I.K. Gujral Punjab Technical University, Kapurthala
8. Dr. Ekta Mahajan, AP, I.K. Gujral Punjab Technical University, Kapurthala

In the meeting, following unanimous decisions and recommendations were made:

1. The syllabi of B.A, M.A and M.Phil of Journalism and Mass Communication was discussed and approved keeping in mind the employability, skill enhancement and entrepreneurship of students.
2. The syllabi of Bachelor of Arts (Journalism and Mass Communication) of semester-III & semester-IV batch 2018-21 onwards were designed in lines with global and industrial demands. (Annexure-I)
3. The Syllabus of Master of Arts (Journalism and Mass Communication) of semester III & IV batch 2018-20 was designed. (Annexure-II)
4. The syllabus of M.Phil (Journalism and Mass Communication) of the session 2019-2020 was discussed and approved keeping in mind the innovations and expansion in the field of media research. (Annexure-III)
5. The list of question paper setters was also recommended for Master of Arts (MA) II & IV semester of Journalism & Mass Communication. (Annexure-IV)

The meeting ended with a vote of thanks.

## PROGRAM OUTCOMES

- ✦ The students learn competencies and skills required by the media world.
- ✦ They will be well-integrated in the industry, being industry-ready at the outset.
- ✦ The students would have acquired great confidence by the end of the course, having had hands-on experience with media software, intensive training in media writing, and media exposure in journalistic writing, through informal internships.

### Bachelors of Arts in Journalism and Mass Communication (BAJMC)

It is an Under Graduate (UG) Programme of 3 years duration (6 semesters)

**Eligibility for Admission:** 10+2 in any stream or equivalent from any recognized Board/Institution.

1.3.1

## Department of Management

### **1.3.1. Institution integrates cross cutting issues relevant to Gender, Environment and Sustainability, Human Values and Professional Ethics into the Curriculum**

The University strongly focuses upon the issues of equality and inequality in various community groups, human values, ethical values and environment sustainability. Therefore, in order to integrate cross cutting issues relevant to Gender, Environment and Sustainability, Human Values and Professional Ethics (HVPE) into the Curriculum, the Department has embedded Human values and Professional Ethics subject in the curriculum of MBA program as well as PhD program. Environmental Studies (EVS) has been embedded at the UG level i.e. BBA.

Under HVPE subject, students are acquainted with the concepts of professional and societal ethics, gender equalities and inequalities, feminist relationships and the importance of values like love, loyalty, honesty, trust, friendship, unity, etc. Students are also encouraged to participate in various NGO's in order to contribute in overall growth of society. Apart from this, the university organizes a 7-day workshop on HVPE which is mandatory for all the faculty members to attend so that they can impart better understanding among students about the subject.

Under the EVS course, the students are acquainted with the concepts of sustainability in environment. They are informed about various ecosystems, the rate at which they are being spoiled and what should be done to conserve them. They are also acquainted with the concepts of bio diversity, natural resources, different types of pollutions and their level of destruction in the society. The subject mainly focuses upon inculcating thinking among students how they are important in ensuring sustainable environmental development in society.

These subjects ensure the holistic development of the students so that they are able to have a positive perception towards life, career and society. It also ensures that students, being the future drivers of this society, live their life happily and also makes other's life happy.

### *1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum*

#### **The Department of Mechanical Engineering**

- The university has been working for the overall development of the students. Various courses, namely, Human values and Professional Ethics, Environmental Studies have been introduced as mandatory courses for all programmes of engineering to address issues as Gender Equality, Sustainability, Human Values and Ethics.
- Courses on Disaster management, Non-Conventional energy resources etc, are offered as open electives. These courses help students gain a worldview of the self, society and profession. It emphasizes on holistic understanding of ethical human conduct, trustful and mutually satisfying human behaviour.
- The university also conducts Blood Donation Camps to promote National Integrity, Human values, Communal Harmony.
- Environment and Sustainability Environmental Studies is an interdisciplinary course. The course is offered as a mandatory course for all the U.G programs. The course includes the study of natural resources with emphasis on renewable energy resources, the importance of conserving the present ecosystem, promoting biodiversity, perils of environmental pollution and raising awareness on environmental and social issues.
- A course on “Non-conventional Energy sources” is offered to explain the generation of electricity from various non-conventional sources of energy such as solar, wind, ocean and geothermal energies.
- Guest lectures on Environment and Human Ethics are organized in the departments to aware students about the Conservation of environment and develop ethical morals in them.
- International Women’s Day is celebrated every year with active student participation. Also, special talks are arranged to encourage women to explore opportunities in science and technology. The student counsellor counsels’ students on gender equality and other related issues.
- Following subjects have been introduced in the syllabus for developing the above said morals in the students:

Sr. No.	Name of Subject	Subject Code	Course Name	Semester
1.	Environmental Science	EVS101-18	B.Tech.	4 <sup>th</sup>

<b>Internal max. marks:</b> 40	<b>Theory/Practical:</b> Theory
<b>External max. marks:</b> 60	<b>Duration of end semester exam (ESE):</b> 3hrs
<b>Total marks:</b> 100	<b>Elective status:</b> Ability Enhancement

**Prerequisite: -NA-**

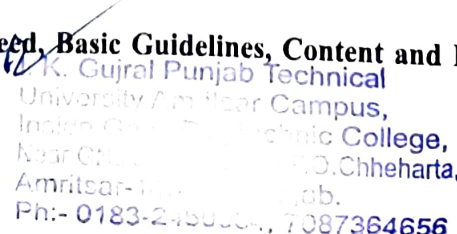

**Co requisite: -NA-**

**Additional material required in ESE: -NA-**

**Course Outcomes:**

CO#	Course outcomes
CO1	To help the students appreciate the essential complementarity between 'VALUES' and 'SKILLS' to ensure sustained happiness and prosperity which are the core aspirations of all human beings.
CO2	To facilitate the development of a Holistic perspective among students towards life, profession and happiness, based on a correct understanding of the Human reality and the rest of Existence. Such a holistic perspective forms the basis of Value based living in a natural way.
CO3	To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually satisfying human behavior and mutually enriching interaction with Nature.

Note: This course is intended to provide a much needed orientational input in Value Education to the young enquiring minds.

Detailed Contents	Contact hours
<b>Unit-I</b>  <b>Course Introduction - Need, Basic Guidelines, Content and Process for Value Education</b>   	8

**I. K. Gujral Punjab Technical University**  
**Bachelor of Computer Applications (BCA)**

<ol style="list-style-type: none"> <li>1. Understanding the need, basic guidelines, content and process for Value Education</li> <li>2. Self-Exploration-what is it? - its content and process; 'Natural Acceptance' and Experiential Validation- as the mechanism for self-exploration</li> <li>3. Continuous Happiness and Prosperity- A look at basic Human Aspirations</li> <li>4. Right understanding, Relationship and Physical Facilities- the basic requirements for fulfillment of aspirations of every human being with their correct priority</li> <li>5. Understanding Happiness and Prosperity correctly- A critical appraisal of the current scenario</li> <li>6. Method to fulfill the above human aspirations: understanding and living in harmony at various levels</li> </ol>	
<p><b>Unit-II</b></p> <p><b>Understanding Harmony in the Human Being - Harmony in Myself!</b></p> <ol style="list-style-type: none"> <li>1. Understanding human being as a co-existence of the sentient 'I' and the material 'Body'</li> <li>2. Understanding the needs of Self ('I') and 'Body' - <i>Sukh</i> and <i>Suvidha</i></li> <li>3. Understanding the Body as an instrument of 'I' (I being the doer, seer and enjoyer)</li> <li>4. Understanding the characteristics and activities of 'I' and harmony in 'I'</li> <li>5. Understanding the harmony of I with the Body: <i>Sanyam</i> and <i>Swasthya</i>; correct appraisal of Physical needs, meaning of Prosperity in detail</li> <li>6. Programs to ensure <i>Sanyam</i> and <i>Swasthya</i>  - Practice Exercises and Case Studies will be taken up in Practice Sessions.</li> </ol>	8
<p><b>Unit-III</b></p> <p><b>Understanding Harmony in the Family and Society- Harmony in Human-Human Relationship</b></p> <ol style="list-style-type: none"> <li>1. Understanding harmony in the Family- the basic unit of human interaction</li> <li>2. Understanding values in human-human relationship; meaning of <i>Nyaya</i> and program for its fulfillment to ensure <i>Ubhay-tripti</i>; Trust (<i>Vishwas</i>) and Respect (<i>Samman</i>) as the foundational values of relationship</li> <li>3. Understanding the meaning of <i>Vishwas</i>; Difference between intention and competence</li> <li>4. Understanding the meaning of <i>Samman</i>, Difference between respect and differentiation</li> </ol>	6

**I. K. Gujral Punjab Technical University  
Bachelor of Computer Applications (BCA)**

<p>5. Understanding the harmony in the society (society being an extension of family): <i>Samadhan, Samridhi, Abhay, Sah-astitva</i> as comprehensive Human Goals</p> <p>6. Visualizing a universal harmonious order in society- Undivided Society (<i>Akhand Samaj</i>), Universal Order (<i>Sarvabhaum Vyawastha</i>)- from family to world family! - Practice Exercises and Case Studies will be taken up in Practice Sessions.</p>	
<p><b>Unit-IV</b></p> <p><b>Understanding Harmony in the Nature and Existence - Whole existence as Co-existence</b></p> <ol style="list-style-type: none"> <li>1. Understanding the harmony in the Nature</li> <li>2. Interconnectedness and mutual fulfillment among the four orders of nature- recyclability and self-regulation in nature</li> <li>3. Understanding Existence as Co-existence (<i>Sah-astitva</i>) of mutually interacting units in all-pervasive space</li> <li>4. Holistic perception of harmony at all levels of existence - Practice Exercises and Case Studies will be taken up in Practice Sessions.</li> </ol>	5
<p><b>Unit-V</b></p> <p><b>Implications of the above Holistic Understanding of Harmony on Professional Ethics</b></p> <ol style="list-style-type: none"> <li>1. Natural acceptance of human values</li> <li>2. Definitiveness of Ethical Human Conduct</li> <li>3. Basis for Humanistic Education, Humanistic Constitution and Humanistic Universal Order</li> <li>4. Competence in professional ethics:             <ol style="list-style-type: none"> <li>a) Ability to utilize the professional competence for augmenting universal human order,</li> <li>b) Ability to identify the scope and characteristics of people-friendly and eco-friendly production systems,</li> <li>c) Ability to identify and develop appropriate technologies and management patterns for above production systems.</li> </ol> </li> <li>5. Case studies of typical holistic technologies, management models and production systems</li> <li>6. Strategy for transition from the present state to Universal Human Order:             <ol style="list-style-type: none"> <li>a) At the level of individual: as socially and ecologically responsible engineers, technologists and managers</li> <li>b) At the level of society: as mutually enriching institutions and organizations.</li> </ol> </li> </ol>	6

1.3.1

## IKGPTU, Mohali Campus-I

## I.K. Gujral Punjab Technical University ( Mohali Campus-1 )

**1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the curriculum.**

**Human Values and Professional Ethics:** Five days Human Values workshop has been organised for the students. This workshop is comprised of class room discussions with real life situations. It also focuses on ethical concerns common to human service situations. It is in response to a long- felt and urgent need to integrate value education with decision making skills in their professions. The workshop concludes by proposing several salient steps to undertake the journey towards holistic and value-based living. Apart from above, students study following courses as compulsory part of their curriculum:

- Foundation Course in Humanities (Development of Societies/Philosophy)
- Universal Human Values 2
- Constitution of India/ Essence of Indian Traditional Knowledge
- Mentoring and Professional Development

**Environment and sustainability:** University prescribed compulsory course "Environmental Science", as part of their curriculum. Moreover, three Open Electives subjects are introduced, and students can opt and study following subjects in open electives leading towards coverage of Environment sustainability:

- Disaster Preparedness & Planning
- Environmental Impact Assessment
- Renewable Energy Sources

Institution encourages and supports students to go with plans of protecting environment like planting saplings and plastic free campus.

1.3.1

## IKGPTU, Hoshiarpur Campus

### **1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum**

#### **IKG-PTU Campus, Hoshiarpur**

#### **The Department of Mechanical Engineering**

- The university has been working for the overall development of the students. Various courses, namely, Human values and Professional Ethics, Environmental Studies have been introduced as mandatory courses for all programmes of engineering to address issues as Gender Equality, Sustainability, Human Values and Ethics.
- Courses on Disaster management, Non-Conventional energy resources etc, are offered as open electives. These courses help students gain a worldview of the self, society and profession. It emphasizes on holistic understanding of ethical human conduct, trustful and mutually satisfying human behaviour.
- The university also conducts Blood Donation Camps to promote National Integrity, Human values, Communal Harmony.
- Environment and Sustainability Environmental Studies is an interdisciplinary course. The course is offered as a mandatory course for all the U.G programs. The course includes the study of natural resources with emphasis on renewable energy resources, the importance of conserving the present ecosystem, promoting biodiversity, perils of environmental pollution and raising awareness on environmental and social issues.
- A course on “Non-conventional Energy sources” is offered to explain the generation of electricity from various non-conventional sources of energy such as solar, wind, ocean and geothermal energies.
- International Women’s Day is celebrated with active student participation. Also, special talks are arranged to encourage women to explore opportunities in science and technology. The student counsellor counsels’ students on gender equality and other related issues.
- Following subjects has been introduced in the syllabus for developing the above said morals in the students:

<b>Sr. No.</b>	<b>Name of Subject</b>	<b>Subject Code</b>	<b>Course Name</b>	<b>Semester</b>
1.	Environmental Science	EVS101-18	B.Tech.	4 <sup>th</sup>
2.	Management & Engineering	BTME504-18	B.Tech.	5 <sup>th</sup>

  
**DEPUTY DIRECTOR**  
**IKGPTU CAMPUS HOSHIARPUR**

	Economics			
3.	Essence of Indian Knowledge Tradition	BTMC102-18	B.Tech.	5 <sup>th</sup>
4.	4 Weeks Industrial Training	BTME409-18	B.Tech.	5 <sup>th</sup>
5.	Non-Conventional Energy Resources	BTME615-18	B.Tech.	6 <sup>th</sup>
6.	6 Months Industrial Training	BTME-801	B.Tech.	8 <sup>th</sup>

### The Department of Computer Science & Engineering

The subjects relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability are integral part of university curriculum. Details of these subjects is as follows:

Sr. No	Subject Name	Semester	Teaching load per week (Hrs)
1	Mentoring and Professional Development	1 <sup>st</sup>	02
2	Mentoring and Professional Development	2 <sup>nd</sup>	02
3	Foundation Course in Humanities (Development of Societies/Philosophy)	3 <sup>rd</sup>	03
4	Universal Human Values 2	4 <sup>th</sup>	03
5	Environmental Sciences	4 <sup>th</sup>	03

### Department of Civil Engg

Moral Values, Human Values & Professional Ethics: Twenty one days Induction programme related to values and ethics is an integral part of the curriculum of the first year. The compulsory course “Universal Human values & Professional Ethics” for 2nd year & open elective course “Understanding the Human Being Comprehensively-Human Aspirations and Its Fulfilment” for the final year are important part of Curriculum. The common course “Industrial Sociology” and Industrial Psychology are basic part of curriculum of third year. Students will be able to understand the importance of ethics and values in their personal, social & professional life after studying these courses. These subjects provide free

  
 DEPUTY DIRECTOR  
 IKGPTU CAMPUS KOSHIARPUR

environment for inculcating values and developing ethical competence among the students. It is in response to a long- felt and urgent need to integrate value education with decision making skills in their personal, social and professional life. College celebrates days of National and International importance as Republic day, Women's day, Independence Day, Teacher's day, Human Right Day, International Yoga Day etc. These celebrations nurture the moral, ethical and social values in the students.

S.No	Description of critical issue	Title of course wherein the issue is addressed	Remarks
1	Environment sustainability	EVS, Environment Engg, Geo Environment, Sustainable Construction Methods, EIA and LCA	Role of Engineers in the construction of buildings, dams, expressways & infrastructure projects in the 21st Century. Importance of interdisciplinary approach in Engineering To correlate the human population growth and its trend to the environmental degradation and develop the awareness about his/her role towards environmental protection and prevention
2	Professional ethics	Soft Skills, Management 1: Organisational Behaviour, Professional ethics and law	To introduce the students to skills necessary for getting, keeping and being successful in a profession. To Develop Project Management aspect and Entrepreneurship Skills
3	Human values	Human Values	To create awareness on professional ethics and Human Values.

  
 DEPUTY DIRECTOR

**Course Code: HVPE101-18**

**Course Name: Human Values, De-addiction and Traffic Rules**

<b>Program:</b> BCA	<b>L: 3    T: 0    P: 0</b>
<b>Branch:</b> Computer Applications	<b>Credits:</b> 3
<b>Semester:</b> 1 <sup>st</sup>	<b>Contact hours:</b> 33 hours
<b>Internal max. marks:</b> 40	<b>Theory/Practical:</b> Theory
<b>External max. marks:</b> 60	<b>Duration of end semester exam (ESE):</b> 3hrs
<b>Total marks:</b> 100	<b>Elective status:</b> Ability Enhancement

**Prerequisite: -NA-**

**Co requisite: -NA-**

**Additional material required in ESE: -NA-**

**Course Outcomes:**

<b>CO#</b>	<b>Course outcomes</b>
CO1	To help the students appreciate the essential complementarity between 'VALUES' and 'SKILLS' to ensure sustained happiness and prosperity which are the core aspirations of all human beings.
CO2	To facilitate the development of a Holistic perspective among students towards life, profession and happiness, based on a correct understanding of the Human reality and the rest of Existence. Such a holistic perspective forms the basis of Value based living in a natural way.
CO3	To highlight plausible implications of such a Holistic understanding in terms of ethical human conduct, trustful and mutually satisfying human behavior and mutually enriching interaction with Nature.

Note: This course is intended to provide a much needed orientational input in Value Education to the young enquiring minds.
