Mohali Campus-II

Field study trips are an essential part of Architecture education. Field study trips (Educational Tours/Case-studies/Industrial visit etc.); link the classroom experience with the outside world which helps to improve the practical learning of the students. Furthermore, students should have an opportunity to play the roles of critical users as well as co-creators or spatial planners. In this respect, the field trip plays a vital role for Art and Architecture education, as it allows the students to experience architectural space through their own movement, their senses and in a real environment. The architectural experience that the Students gain differs from their everyday experience of moving through space, as the former is based on education and training, and thus helps them to develop architecture appreciation. Seeing first-hand buildings of significant architectural importance; from historic treasures to modern structures, will help to inspire the students' future careers.

A Field study trip allows the architecture students to undertake important research to aid their studies and may include core and optional topics such as architectural design, structures, construction, environmental design and the history and theory of architectural design.

In this regard, the students of IKG PTU Mohali Campus-II were taken for various field visits (briefly discussed below). Also, the students are encouraged to do some field studies by their own to appreciate and learn the important significances of the architecture course.

#### Case-study of Village Gharuan

The objective of the case study is to make students appreciate the elements of Rural Architecture of Punjab; understand the social and physical environment and methods of construction in the rural regions. The students will do in-depth study of rural architecture and do a detailed analysis to get a clear picture of the pros and cons of the given spaces that might have an effect on their design and it also helps them to visualize the design effectively.

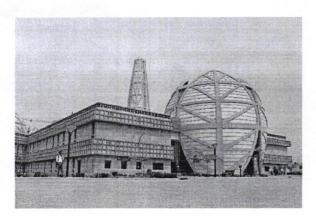

Director \\

#### Visit to Jung-E- Azaadi Memorial

As a part of Architectural Graphics outdoor sketching, the students were taken to the Jung-E-Azaadi memorial for sketching. Architectural sketches are all about communicating ideas, whether it is solving initial design problems or working through ideas and details. Sketching has always been one of the profession's core skills. It should still remain that way because some of the best ideas start with a sketch. No matter the advancement of technology that will come in the future, as professional we believe that architect's should sketch.

Director

#### Case-study of Kapurthala City

The objective of the case study is to make students appreciate the elements of Architecture of the Princely state of Punjab; understand the social and physical environment and methods of construction with respect to climate and availability of materials and labour in the past. The case study tour was undertaken to Kapurthala city so that students should know about the Indo-French architecture adopted in Punjab region according to the climate of the city. To make them learn and prepare the documentation drawings of various important places of the city (Sainik School (Formerly Jagatjit Palace), Shalimar Bagh (Gardens), District Courts buildings etc.).

#### Subject: Permission for Case-study of Kapurthala City

Respected Sir/Madam,

I would like to bring into your kind notice that as part of the syllabus the 4th and 6th semester students have to document any of the vernacular/sustainable settlement to understand the scope of their Design project better. As class and subject Co-ordinator of Architectural Design, along with Mr Tarsem Singh (Architectural graphic teacher), taking the students for case study of Kapurthala city.

I want to undertake a case study tour to Kapurthala city so that students should know about the Indo-French architecture adopted in Punjab region according to the climate of the city. To make them learn and prepare the documentation drawings of various important places of the city (Sainik School (Formerly Jagatjit Palace), Shalimar Bagh (Gardens), District Courts buildings etc.).

The objective of the case study is to make students appreciate the elements of Architecture of the Princely state of Punjab; understand the social and physical environment and methods of construction with respect to climate and availability of materials and labour in the past. The students will do in-depth study of architecture adopted and do a detailed analysis to get a clear picture of the pros and cons of the given spaces that might have an effect on their design and it also helps them to visualize the design effectively. The students will understand more from their keen observations by visiting these building personally. I hope that this tour will widen their knowledge, ideas and outlook.

The team will consist of 34 students and 02 teachers and it will take three days (March 04-06, 2020) for the tour. It is requested to provide funds (approximated budget is **37,560/-**, copy attached) to conduct the study and seeking permission for hostel accommodation (2 nights) in the University campus.

# Subject: Permission to arrange the beddings on rent for students from the local market of Kapurthala.

To conduct the Architectural Design-IV Case -study the hostel accommodation (for 2 nights) in the University campus had been arranged. But due to the ongoing Annual Athletic Meet-2020 in the University Main Campus the students & Faculty members of IKG PTU MC-II could not accommodate well. With the advice of Chief-warden of the Main campus the beddings were arranged from the local market on rent. The consent of same had been taken telephonically from the Incharge Campus MC-II. The bill of the same is attached. ( total amount is 4600/-)

Details

Bister Rent = 3000/
Conveyonce rent = 1600/
Total amount = 4600/

### Subject: Permission for Case-study of Village Gharuan .

Respected Sir,

Before starting the Design assignment the students get to do a hand on the study of a live project of the similar genre that helps them to understand the scope of the project better. As class and subject Co-ordinator of Architectural Design of 4<sup>th</sup> Semester (Batch 2017), along with Mr Gurwinder Singh (Draftsman), taking the students for case study of Village Gharuan, Mohali.

The objective of the case study is to make students appreciate the elements of Rural Architecture of Punjab; understand the social and physical environment and methods of construction in the rural regions. The students will do in-depth study of rural architecture and do a detailed analysis to get a clear picture of the pros and cons of the given spaces that might have an effect on their design and it also helps them to visualize the design effectively. I believe they understand from their keen observations.

Your approval to conduct this study will be greatly appreciated.

Subject: Permission for Case-study of City Beautiful-Chandigarh.

Respected Sir,

The students of III<sup>rd</sup> Semester (Batch 2017) want to know the details of Modern and Contemporary Architecture, keeping their interest and urge for the profession, I plan to take them to Chandigarh for a small case study, to make them understand the elements of the Architectural design, their adaptation in the built-form and to know the basic details. This study will also help the students to frame the requirements that they haven't included in their design earlier and they get to know that every design is subjective and fits in differently with the changing region, climate, and landscape.

The study will aware the students for the objective and scope of their design project and make them sure about the requirements what they have framed (are enough or are the spaces covered sufficiently). The different queries regarding the space utilization, architectural elements, facade treatments etc. can be answered by this case study.

I hope this case study will exposed to the various details of Modern Architecture and enable the students to study which will eventually help them make their literature strong.

Your approval to conduct this study will be greatly appreciated.

Subject: Permission For Study Tour.

Respected Madam,

We the students of B.Arch. 5th semester (20 Students) & 3rd semester (8 Students), wish to state that we want to go to a educational tour to Tamil Nadu and Pondicherry in the first fortnight of October for learning the vernacular architecture of the place and explore the different colonial architectural styles. Through the tour we can gain practical knowledge of various things along with that of our text books. Hereby we request you to kindly grant us the permission.

The detailed trip proposal is attached.

Yours Obediently

(5th semester) (3rd semester) 28/08/2018

(STUDENT COORDINATOR), [STUDENT CORDINATOR) Recommended for approval as it is also a part of BArch Curriculum

(Ar. Md Fuzail Jawaid)

(Design Faculty and Co-Ordinator)

-> HOD (Architecture)

Per student (Total 28 students)

kindly give forward approved Rubl Probly? Director 1.K.G.P.T.U.

### Subject: Permission for Case-study of House.

Respected Sir,

Before starting the Design assignment (House Design), the students get to do a hand on the study of a live project of the similar genre that helps them to understand the scope of the project better. As class and subject Co-ordinator of Architectural Design of IIIrd Semester (Batch 2017), I would like to take the students for case study of Pierre Jeanerette house, Sector 5, Chandigarh.

The objective of the case study is to understand the design philosophy of the architect, the architect's design principle, and functions algorithm for designing a house. The students will do in-depth study of house and do a detailed analysis to get a clear picture of the pros and cons of the House design that might have an effect on their design and it also helps them to visualize the design effectively. I believe they understand from their keen observations.

Your approval to conduct this study will be greatly appreciated.
