**Development of Software of Research**

**Innovation and Consultancy**

Software for Ph.D program

1. Ph.D program covers from entrance test for Ph.D to the award of the Ph.D degree.
2. The maximum period of Ph.D degree is 8 years.
3. Admission in Ph.D program will take place two times in a year. The session will start in the month of July (summer) and January (winter).
   For summer session the application will be invited in the month of April / May and for the winter session the application will be invited in the month of November.
4. → Admission for registration 2010

   a. Applicants will have to pass a test conducted by Punjab Technical University.
   b. If the applicant has qualified a national test or otherwise exempted from test, he/she will not have to appear in the test conducted. But he will have to apply in the prescribed form. Gate cut reduction
   c. All the applicants after qualifying the test or who has been already exempted from the test will have to appear for the interview.
   d. The selection of the candidate for the provisional registration is decided only after the interview.
   e. The student will have to fill application form for provisional registration ( format enclosed). The data of the candidate may be transformed from the application form of Ph.D.
   f. The candidate has to clear two papers in two semesters. Either both in one semester or one in each.
   g. The passed out students are ready to submit their synopsis within 12 months. After 12 months he/she can submit the synopsis with late fee of Rs.5000/-
   h. Synopsis will be sent two or three experts who may be in the data bank or may be added externally also.
   i. The report of the expert in the prescribed format will be submitted online to administrator.
   j. The date of the presentation of synopsis will be informed to the students by E-mail.

Leave for vacant slots from supervisors
