

7.2.1

Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Expert Lectures

In an effort to bring high quality information to the students by an Expert. 'The Expert' Talk is a designed to summarise the key indications and development in his/her field of expertise.

Objectives of Expert Talks

Round the year, guest talks were organized wherein eminent personalities from the corporate world and renowned institutions were invited to share real life experiences with students. A good blend of theory and practice is experienced by students. The lectures were highly enlightening particularly for the younger generation of engineers to understand the technology innovations taking place in the field, around the world.

The Context

Apart from the design of the course, Seminars, Workshops as well as Expert Talks, Industry people are not regularly and readily available for the institutes in respect to address and train the students about the current need of Local as well as Global market. It is a big challenge for every Engineering/ Technical Institutes to provide platform to the students for market as well as research.

The Practice

Expert Talks need is for always to train the students for industry need, Industry is ready to extend help for young engineers but limited academic span is challenge. Relevant industry may not be available locally.

Event of Success

- Improved Technical & Programmes Skills
- Better Soft Skills
- Team Building is encouraged

Problems Encountered and Recourses Required

Problem encountered

- Lack of Practical Knowledge
- Job Market
- New Technology
- Higher Competition

Resources Required

- Subject Knowledge
- Additional Skills on the subject matter
- Industrial Exposure
- Knowledge of affairs and up-gradation
- Analytical and Creative thinking
