NOTIFICATION

Sub: IT Policy for I.K Gujral Punjab Technical University

As approved by competent authority vide e-office file No. D/646/2021-ITS (Computer No. 50748) dated 31.12.2021, the following is the policy for use of IT Services of the University and its Constituent Campuses:

1. Preamble

The I. K. Gujral Punjab Technical University was established by an Act of State Legislature on 16th January, 1997, to promote Technical, Management and Pharmaceutical education in the state at degree level and above. Over the years, the University has grown substantially in terms of departments and academic programs as well as in infrastructure. In the journey of 13 years, University has established Main Campus at Kapurthala and five constituent campuses located at Mohali, Amritsar, Hoshiarpur, Sultanpur Lodhi in the state of Punjab. Every stake holder of the University has requirements of IT services to work smoothly. Realizing the importance of such services, Information Technology cell has been established in 2008 for setting up basic network infrastructure in the University premises.

Need for IT Policy

The basic purpose of University's IT policies is regarding protection of computer, email and network usage of all individuals associated with I.K. Gujral Punjab Technical University. Inappropriate use makes the university vulnerable to risks such as virus attacks, misuse/commercial usage of official emails, compromise of network systems and services etc.

Access to the information technology environment at I.K. Gujral Punjab Technical University is a privilege and must be treated as such by all users. Students, Staff and other Stake holders are expected to be positive members of the University community, which extends to cyberspace, by following all University policies.

I.K. Gujral Punjab Technical University provide all faculty, students and staff with a modern, fully networked computing and IT environment for academic use.

Users of I.K. Gujral Punjab Technical University computing, networking and IT facilities are expected to abide by the rules, which are intended to preserve the utility and flexibility of the system, protect the privacy and work of students and faculty, and preserve our right to access the international networks to which the system is connected. In case of complaints, appropriate action to be taken will be decided and taken by the I.K. Gujral Punjab Technical University Authorities.

The IT department of the University has implemented an internet facility through optical fibre backbone connecting the academic as well as administrative departments. The IT department should ensure the internet facilities to be provided to each stake holders of the University. It also maintains the cloud server, web server, Microsoft mail server, administrative database server, Biometric server, CCTV, antivirus/end point protection, University domain, sub-domains, various software/hardware, etc. of the University.

Page 1 of 6

IT Services
IKG PTU, Jalandhar-Kapurthala

In addition, it also maintains the computing resources used by the faculty and the administration.

Maintenance of these computing resources has become a cause of serious concern over the years. With the increase in the size of the computing resources in the University, need has also arisen for streamlining the process of procurement, maintenance and disposal of the computing resources in the University. A policy document in this regard has therefore become necessary in the University.

2. The IT Policy

The IT policy shall include the following aspects:

- 2.1. Services to be provided by the computer centre (IT Services department)
- 2.2. Procurement of IT Infrastructure
- 2.3. Maintenance of IT Infrastructure
- 2.4. Networking facilities
- 2.5. Development, maintenance and upgradation of the software.
- 2.6. Green Computing Practices
- 2.7. Disposal of obsolete or unusable IT Infrastructure
- 2.8. Access control and usage of IT Infrastructure
- 2.9. Risk Management of IT Infrastructure
- 2.10. Computer Centre Committee
- 2.11. e-Content development and Management
- 2.12. Violations of IT Policy

2.1 Services to be provided by the Computer Centre

The Computer Centre shall provide the following services:

- Provide computing resources to the students, Faculty Members, Administration and other stake holders.
- Set-up and maintain the LAN and WiFi.
- Facilitate Internet, email services etc. to all University users.
- Maintain the University websites.
- Assist the Administration in the process of Selection and Procurement of Computing Resources.
- Organize training programs for the faculty and staff from time-to-time.
- Provide necessary support for IT related services.
- Up-gradation of IT infrastructure.
- Implement various software/websites/portals for smoothening the process.
- Conducting Skill Tests for recruitments.
- Providing resources for conducting online examinations
- Maintaining website and databases for various Academics as well as examination purposes.

2.2 Procurement of IT Infrastructure

The computing resources shall be procured by the Computer Centre for University. The process of procurement of the computing resources by the Computer Centre shall be as follows:

- The specifications for the computing resources shall be worked out by the Computer Centre in coordination with Intender.
- The purchase process shall be as per university norms.

IT Services
IKG PTU, Jalandhar-Kapurthala

2.3 Maintenance of IT Infrastructure

The post-warranty maintenance of the computers, servers and other IT equipment's shall be carried out through AMC. The requirement of AMC will be depending upon the cost and critical nature of the device. The procurement process of AMC shall be managed by the computer center. A small buffer of necessary IT equipment's shall be maintained for temporary replacement in critical usage cases.

2.4 Networking facilities

The LAN and Wi-Fi facility shall be provided and maintained by the Computer Center. The LAN facility shall cover all the academic departments, administrative departments, constituent campuses, offices, hostels, and the residential area with the approval of competent authority. The Wi-Fi facility shall be provided in the entire campus in phased manner. Appropriate technologies shall be used for the networking. The procurement, installation, administration and maintenance of the networking equipment shall be the responsibility of the Computer Centre.

2.5 Development, Maintenance and Upgradation of Software

There shall be a mechanism for development, maintenance and upgradation of the software/website/web portals etc. The software should be hosted and manage through Computer Centre. Optionally, the software/website/web portal can be developed/managed through department itself with the approval of competent authority. The user departments should take the responsibility to submit a Software Requirement Specification (SRS) describing any need for new software or upgradation of existing software or maintenance, and the stipulated time frame for the service (i.e., urgency).

The Computer Centre will consider the SRS and either recommend third party service or take up the task for in-house service. For in-house tasks, the Computer Centre members may directly carry out the task, or engage other members, including students. Optionally, external professionals may also be hired. The same may be validated from the intender department and provide the user acceptance.

The Computer Centre shall also be responsible maintaining the University Website(s). One of the Computer Centre members shall act as the Web Master.

Software procured or developed should be properly documented and maintained in-house. Tailored software, developed by third parties must provide the full source code of the software.

The source codes of software developed in-house both by the software professionals or students must be available and maintained by the computer center personnel.

The software packages that have already been procured or developed in-house will be distributed to different user departments based on the user requirement assessment.

2.6 Green Computing Practices

Due to growing concern in environmental responsibility, the computing resources should be used efficiently. The following green computing practices shall be adopted.

- Obsolete equipment disposal by following "Upgradation and disposal of obsolete or unusable IT infrastructure" policy.
- Use of certified energy efficient and environment friendly equipment
- Sharing printers over network
- Keeping monitors in sleep mode or turn off mode when not in use
- Activating power management feature on computers and peripherals
- Use of email for circulation of office documents and memos
- Reduce paper waste by printing as little as possible
- Use of double-sided printing
- Refilling toner cartridge wherever possible and buy back of batteries by authorized vendors

2.7 Disposal of obsolete or unusable IT infrastructure

There shall be a central disposal committee as per university norms to assess the status of the IT resources. The committee shall prepare "Upgradation and disposal of obsolete or unusable IT infrastructure" policy. A member of the concerned department shall be a special invitee. The committee shall assess the status of the resources periodically and shall be empowered to declare a computing resource as obsolete and to recommend its disposal. The resources tagged as obsolete will be replaced by state-of-the-art resources, subject to availability of funds, without affecting the work of users.

2.8 Access Control and Usage of IT infrastructure

In respect of access control and usage of IT infrastructure the University policy shall be as follows:

The University shall have the right to control the access to the various computing resources and databases in the University.

1. Accessing undesirable/illegal/harmful/copy right in fringing materials using the University computing resources is prohibited. The access to those materials/websites shall be blocked to the extent possible. Log of accesses to websites of doubtful nature shall be maintained and scanned from time-to-time.
2. Users are expected to respect the privacy of other users and they may not allow any other person to use their password or share their account. It is the users' responsibility to protect their account from unauthorized use by changing passwords periodically and using passwords that are not easily guessed. Sharing of passwords for any purpose whatsoever is strictly prohibited.
3. Any attempt to circumvent system security, guess others' passwords, or in any way gain unauthorized access to local or network resources is forbidden. Users may not use another person's computing account, attempt to forge an account identity, or use a false account or e-mail address.
4. Downloading and installing of new software has to be done with the explicit consent of the respective facility in-charges. Installation of unlicensed software on university facilities, or on individual machines connected to the University network, is prohibited and sole responsibility of users.

 IT Services
 IKG PTU, Jalandhar-Kapurthala

5. To the extent possible, users are expected to use only their official email addresses provided by university for official communications with other members of the University.
6. Recreational downloads and peer to peer connections for recreational purposes are not allowed unless it is academic requirement.
7. Users are expected to take proper care of network equipment, and are expected to report any malfunction to the staff on duty or to the in-charge of the facility.
8. Playing of Games in University laboratories or using University facilities for same is prohibited.
9. The users shall maintain discipline and shall not cause any damage to any resource of the Computer Centre and other laboratories.
10. The users shall not bring any food item to the Computer Centre.
11. Every user shall sign a user acceptance document assuring to abide by the above rules at the time of applying for Internet user login account. With the approval of competent authority disciplinary action shall be initiated against a user violating any of these rules and shall block his/her access to the resources in the Computer Centre.

2.9 Risk Management of IT infrastructure

With growing dependency on IT infrastructure, the threats and vulnerabilities to IT infrastructure are of great concern today. IT infrastructure faces several risks and the risk exposure may vary from time to time. It is necessary to perform IT infrastructure risk assessment on regular basis. The University shall follow the risk management policies as given below:

- Periodic and Scheduled back up of data in geographically separated location.
- Keeping IT infrastructure under surveillance at critical locations.
- Use of fire alarm, smoke alarm and fire extinguisher
- Earth quake resistant buildings
- Use of Anti-virus tools for protecting servers, desktops and network devices from malwares
- Regular updating of software with security patches
- Regular updating of firewall

2.10 Computer Centre Committee

There shall be a Computer Centre Committee consisting of one representative from each of the user departments with the Vice-Chancellor/VC Nominee as the chairman and the HOD/In-charge of the Centre as its convener. The committee shall meet at least once in a semester to review the functioning of the IT infrastructure and to take major operational and policy decisions.

2.11 e-Content development and Management

Computer Centre will create technology enhanced learning resource centre at IKGPTU to enhance quality of teaching and capture the digital content in a high-quality format with less manpower. It will encompass entire digital content development cycle from production to consumption by the end user. All the policies related to usage of learning resource centre will be finalized by committee with approval of competent authority.

Computer Centre will create technology enhanced learning resource centre at IKGPTU to enhance quality of teaching and capture the digital content in a high-quality format with less manpower. It will encompass entire digital content development cycle from production to consumption by the end user. All the policies related to usage of learning resource centre will be finalized by committee with approval of competent authority.

2.12 Violation of IT Policy

Violations of policy will be treated as academic misconduct, misdemeanour or indiscipline as appropriate. Depending upon the nature of the violation, the university authorities may fine/or and take an appropriate action as per penal provisions under Indian laws. The policy may change as and when it is considered appropriate and new policies or the changes in policy will take effect immediately after a brief announcement by any means, e-mail, printed notices.

Terms and Conditions

1. Special terms and conditions

1.1 As per notification of MEITY circulated vide letter no. F.No.33(1)/2017-IPHW, dated 14/09/2017, the minimum local content should be 45 percent to qualify as local or domestic manufacturer. Seller has to ensure that operating system software etc comes preloaded with machine from respective OEM. Any deviation in respect of genuinity and authenticity of OS will attract severe penalty on part of seller as law of the land and contractual provisions. Buyer are also requested to verify the key no of OS etc with server of Microsoft/Linux before accepting machines to avoid complexity at latter stage.

2. General terms and conditions

2.1 This Contract between the Seller and the Buyer, is for the supply of the Goods and/ or Services, detailed in the schedule above, in accordance with the General Terms and Conditions (GTC) as available on the GeM portal (unless otherwise superseded by Goods / Services specific Special Terms and Conditions (STC) and/ or BID/Reverse Auction Additional Terms and Conditions (ATC), as applicable

2.2 **Terms of delivery:** Free Delivery at Site including loading/unloading. In respect of items requiring installation and / or commissioning and other services in the scope of supply (as indicated in respective product category specification / STC / ATC), and the cost of the same is also included in the Contract price.

2.3 **Delivery period:** The Delivery Period/Time shall be essence of the Contract and delivery must be completed not later than such date(s). Any modification thereto shall be mutually agreed and incorporated in the Contract as per the provisions of the GTC.

2.4 **Performance Security:** If the Seller fails or neglects to observe or perform any of his obligations under the contract it shall be lawful for the Buyer to forfeit either in whole or in part, the Performance Security furnished by the Seller.

2.5 **Taxes and Duties:** Contract Prices are all inclusive i.e. including all taxes, duties, local levies / transportation / loading-unloading charges etc. Break up of GST shall be indicated by the Seller while raising invoice / bill on GeM. While submitting the bill / invoice Seller shall undertake that the Goods and Services Tax (GST) charged on this bill is not more than what is payable under the provision on the relevant Act or the Rules made there under and that the Goods on which GST has been charged have not been exempted under the GST Act or the Rules made there under and the charges on account of GST on these goods are correct under the provision of that Act or the rules made there under.

2.6 **Octroi Duty and / or other local taxes:** Contract Prices are all inclusive hence no reimbursement over and above the contract price(s) shall be allowed to seller towards payment of local taxes (such as levy of town duty, Octroi Duty, Terminal Tax and other levies of local bodies etc).

2.7 **Limitation of Liability:** The provisions of limitation of liability between Buyer and Seller as given in the GTC shall be applicable here.

2.8 **Resolution of disputes:** The provisions of DISPUTE RESOLUTION BETWEEN BUYER AND SELLER as given in the GTC shall be applicable here.

2.9 **Liquidated Damages:** If the Seller fails to deliver any or all of the Goods/Services within the original/re-fixed delivery period(s) specified in the contract, the Buyer will be entitled to deduct/recover the Liquidated Damages for the delay, unless covered under Force Majeure conditions aforesaid, @ 0.5% per week or part of the week of delayed period as pre-estimated damages not exceeding 10% of the contract value without any controversy/dispute of any sort whatsoever. In case, Service Level Agreement (SLA) is applicable the same shall be applicable for the Contract.

2.10 Financial Certificate:

2.10.1 The expenditure involved for this purpose has received the Sanction of the competent financial authority.

2.10.2 The funds are available under the proper head in the sanction budget allotment for the concern financial year.

2.10.3 I have been fully authorized by the department to sign the supply order or incur the liability of the Goods being ordered. *

2.11 The bidder should submit a self declaration to the effect in bidder's official letter head that their agency have not been black listed by any Agency whatsoever till date.

3. Additional Terms and conditions

3.1 **Scope of supply (Bid price to include all cost components):** Supply Installation Testing Commissioning of Goods and Training of operators and providing Statutory Clearances required (if any)

IT Services
IKG PTU, Jalandhar-Kapurthala

Code Certificate:

The seller should upload following certificate in the bid:-

(a) This is to certify that the Hardware and the Software being offered, as part of the contract, does not contain Embedded Malicious code that would activate procedures to :-

- (i) Inhibit the desired and designed function of the equipment.
- (ii) Cause physical damage to the user or equipment during the exploitation.
- (iii) Tap information resident or transient in the equipment/network.

(b) The firm will be considered to be in breach of the procurement contract, in case physical damage, loss of information or infringements related to copyright and Intellectual Property Right (IPRs) are caused due to activation of any such malicious code in embedded software.

3.3 The Purchaser reserves the right to increase or decrease the ordered quantity up to 25 percent at the time of placement of contract. The purchaser also reserves the right to increase the contracted qty up to 25% during the currency of the contract at the contracted rates. Bidders are bound to accept the orders accordingly

3.4 Audited Balance sheet of bidder FOR last 3 years or from the date of incorporation if incorporation date is less than 3 months is required.

3.5 Availability of Service Centres : Bidder /OEM must have a Service Centre in the District of each Consignees Location

3.6 AS per Buyer specific Additional Terms & conditions in the Bid, price preference is to be given to local supplier as defined in public procurement (Preference TO Make IN India-20%), ORDER 2017 AND its subsequent Orders/Notifications issued BY concerned Nodal Ministry for specific Goods/Products. AS per this order, the minimum LOCAL content should be 50% TO enable the firm to qualify as local supplier. Accordingly, the bidders must mention the local content percentage in their bid OR product detail and also provide the details of locations at which the local value addition is made, failing which no purchase preference shall be granted to them in case their bids are higher than L-1 bid.

3.7 Bidder/ Supplier/ Organization/ Proprietor/ ANY of the Director(s) shall not be banned or suspended or black listed by any Government / Public Sector Undertaking / Corporate organization or convicted in any Court of Law across India or declared Bankrupt or insolvent. A self declaration certificate must be uploaded in the GeM portal under Bidders Official Letter Head.

3.8 Experience Certificate from the concerned Govt. Department of the subject matter is required along with average turnover of last 3 Yrs BY authority prescribed BY GeM.

3.9 OEM or Authorized distributor/Partner of OEM should have a registered office in India to provide sales and 24x7 support in India. The certificate to this effect should be submitted. The bidder should be either OEM or his authorized dealer/distributor.

3.10 Office of the Service Provider (through Bid) must be located in the said state for sake of better co-ordination, smooth services and other administrative factors.

3.11 Pre-dispatch inspection / testing at Seller premises : Before dispatch, the goods will be inspected and tested by Buyer / Consignee or their Authorized Representative / Nominated External Inspection Agency by Buyer (Fee/Charges taken by the External inspection Agency shall be borne by the Buyer) at Seller's premises for their compliance to the contract specifications. The Sellers will provide necessary testing facilities and shall bear cost of in house testing required, if any. Seller shall notify the Buyer through e-mail about readiness of goods for pre-dispatch inspection and Buyer will notify the Seller about the Authorized Representative/ Nominated External Inspection Agency and the date for testing. The goods would be dispatched to consignee only after clearance in pre-dispatch inspection. Consignee's right of rejection as per GTC in respect of the goods finally received at his location shall in no way be limited or waived by reason of the goods having previously been inspected, tested and passed by Buyer/ Consignee or its Nominated External Inspection Agency prior to the goods' shipment.

3.12 Replacement under warranty clause shall be made by the Seller free of all charges at site including freight, insurance and other incidental charges. During the warranty period, the Seller shall remain responsible to arrange replacement in next Business day (NBD) and for setting right at his own cost any equipment installed by him which is of defective manufacture or design or becomes unworkable due to any cause whatsoever. The decision of the Buyers representative in this regard to direct the contractor to attend to any damage or defect in work shall be final and binding on the Seller.

3.13 Timely Servicing / rectification of defects during warranty period: After having been notified of the defects / service requirement during warranty period, Seller has to complete the required Service / Rectification within time limit specified. If the Seller fails to complete service / rectification with defined time limit, a penalty of defined % of Unit Price of the product shall be charged as penalty for each week of delay from the seller. Seller can deposit the penalty with the Buyer directly else the Buyer shall have a right to recover all such penalty amount from the Performance Security (PBG).

- (i) Time Limit for Service / Rectification of defects will be as defined in the SLA document for the service.
 - (ii) Penalty per week of delay as % of unit price of product will be as defined in the SLA document for the service.
- Seller to give compliance Yes / No while submitting bid.

3.14 The bidder must have ISO 9001 certification.

Note: This is system generated file. No signature is required. Print out of this document is not valid for payment/ transaction purpose.

I.K. GUJRAL PUNJAB TECHNICAL UNIVERSITY
(Registrar Office)

IKGPTU/REG/NF/46

Dated: 17.02.2022

NOTIFICATION

Sub: IT Policy for I.K Gujral Punjab Technical University

As approved by competent authority vide e-office file No. D/646/2021-ITS (Computer No. 50748) dated 31.12.2021, the following is the policy for use of IT Services of the University and its Constituent Campuses:

1. Preamble

The I. K. Gujral Punjab Technical University was established by an Act of State Legislature on 16th January, 1997, to promote Technical, Management and Pharmaceutical education in the state at degree level and above. Over the years, the University has grown substantially in terms of departments and academic programs as well as in infrastructure. In the journey of 13 years, University has established Main Campus at Kapurthala and five constituent campuses located at Mohali, Amritsar, Hoshiarpur, Sultanpur Lodhi in the state of Punjab. Every stake holder of the University has requirements of IT services to work smoothly. Realizing the importance of such services, Information Technology cell has been established in 2008 for setting up basic network infrastructure in the University premises.

Need for IT Policy

The basic purpose of University's IT policies is regarding protection of computer, email and network usage of all individuals associated with I.K. Gujral Punjab Technical University. Inappropriate use makes the university vulnerable to risks such as virus attacks, misuse/commercial usage of official emails, compromise of network systems and services etc.

Access to the information technology environment at I.K. Gujral Punjab Technical University is a privilege and must be treated as such by all users. Students, Staff and other Stake holders are expected to be positive members of the University community, which extends to cyberspace, by following all University policies.

I.K. Gujral Punjab Technical University provide all faculty, students and staff with a modern, fully networked computing and IT environment for academic use.

Users of I.K. Gujral Punjab Technical University computing, networking and IT facilities are expected to abide by the rules, which are intended to preserve the utility and flexibility of the system, protect the privacy and work of students and faculty, and preserve our right to access the international networks to which the system is connected. In case of complaints, appropriate action to be taken will be decided and taken by the I.K. Gujral Punjab Technical University Authorities.

The IT department of the University has implemented an internet facility through optical fibre backbone connecting the academic as well as administrative departments. The IT department should ensure the internet facilities to be provided to each stake holders of the University. It also maintains the cloud server, web server, Microsoft mail server, administrative database server, Biometric server, CCTV, antivirus/end point protection, University domain, sub-domains, various software/hardware, etc. of the University.

In addition, it also maintains the computing resources used by the faculty and the administration.

Maintenance of these computing resources has become a cause of serious concern over the years. With the increase in the size of the computing resources in the University, need has also arisen for streamlining the process of procurement, maintenance and disposal of the computing resources in the University. A policy document in this regard has therefore become necessary in the University.

2. The IT Policy

The IT policy shall include the following aspects:

- 2.1. Services to be provided by the computer centre (IT Services department)
- 2.2. Procurement of IT Infrastructure
- 2.3. Maintenance of IT Infrastructure
- 2.4. Networking facilities
- 2.5. Development, maintenance and upgradation of the software.
- 2.6. Green Computing Practices
- 2.7. Disposal of obsolete or unusable IT Infrastructure
- 2.8. Access control and usage of IT Infrastructure
- 2.9. Risk Management of IT Infrastructure
- 2.10. Computer Centre Committee
- 2.11. e-Content development and Management
- 2.12. Violations of IT Policy

2.1 Services to be provided by the Computer Centre

The Computer Centre shall provide the following services:

- Provide computing resources to the students, Faculty Members, Administration and other stake holders.
- Set-up and maintain the LAN and WiFi.
- Facilitate Internet, email services etc. to all University users.
- Maintain the University websites.
- Assist the Administration in the process of Selection and Procurement of Computing Resources.
- Organize training programs for the faculty and staff from time-to-time.
- Provide necessary support for IT related services.
- Up-gradation of IT infrastructure.
- Implement various software/websites/portals for smoothening the process.
- Conducting Skill Tests for recruitments.
- Providing resources for conducting online examinations
- Maintaining website and databases for various Academics as well as examination purposes.

2.2 Procurement of IT Infrastructure

The computing resources shall be procured by the Computer Centre for University. The process of procurement of the computing resources by the Computer Centre shall be as follows:

- The specifications for the computing resources shall be worked out by the Computer Centre in coordination with Intender.
- The purchase process shall be as per university norms.

2.3 Maintenance of IT Infrastructure

The post-warranty maintenance of the computers, servers and other IT equipment's shall be carried out through AMC. The requirement of AMC will be depending upon the cost and critical nature of the device. The procurement process of AMC shall be managed by the computer center. A small buffer of necessary IT equipment's shall be maintained for temporary replacement in critical usage cases.

2.4 Networking facilities

The LAN and Wi-Fi facility shall be provided and maintained by the Computer Center. The LAN facility shall cover all the academic departments, administrative departments, constituent campuses, offices, hostels, and the residential area with the approval of competent authority. The Wi-Fi facility shall be provided in the entire campus in phased manner. Appropriate technologies shall be used for the networking. The procurement, installation, administration and maintenance of the networking equipment shall be the responsibility of the Computer Centre.

2.5 Development, Maintenance and Upgradation of Software

There shall be a mechanism for development, maintenance and upgradation of the software/website/web portals etc. The software should be hosted and manage through Computer Centre. Optionally, the software/website/web portal can be developed/managed through department itself with the approval of competent authority. The user departments should take the responsibility to submit a Software Requirement Specification (SRS) describing any need for new software or upgradation of existing software or maintenance, and the stipulated time frame for the service (i.e., urgency).

The Computer Centre will consider the SRS and either recommend third party service or take up the task for in-house service. For in-house tasks, the Computer Centre members may directly carry out the task, or engage other members, including students. Optionally, external professionals may also be hired. The same may be validated from the intender department and provide the user acceptance.

The Computer Centre shall also be responsible maintaining the University Website(s). One of the Computer Centre members shall act as the Web Master.

Software procured or developed should be properly documented and maintained in-house. Tailored software, developed by third parties must provide the full source code of the software.

The source codes of software developed in-house both by the software professionals or students must be available and maintained by the computer center personnel.

The software packages that have already been procured or developed in-house will be distributed to different user departments based on the user requirement assessment.

2.6 Green Computing Practices

Due to growing concern in environmental responsibility, the computing resources should be used efficiently. The following green computing practices shall be adopted.

IT Services
IKG PTU, Jalandhar-Kapurthala

Page 3 of 6

- Obsolete equipment disposal by following "Upgradation and disposal of obsolete or unusable IT infrastructure" policy.
- Use of certified energy efficient and environment friendly equipment
- Sharing printers over network
- Keeping monitors in sleep mode or turn off mode when not in use
- Activating power management feature on computers and peripherals
- Use of email for circulation of office documents and memos
- Reduce paper waste by printing as little as possible
- Use of double-sided printing
- Refilling toner cartridge wherever possible and buy back of batteries by authorized vendors

2.7 Disposal of obsolete or unusable IT infrastructure

There shall be a central disposal committee as per university norms to assess the status of the IT resources. The committee shall prepare "Upgradation and disposal of obsolete or unusable IT infrastructure" policy. A member of the concerned department shall be a special invitee. The committee shall assess the status of the resources periodically and shall be empowered to declare a computing resource as obsolete and to recommend its disposal. The resources tagged as obsolete will be replaced by state-of-the-art resources, subject to availability of funds, without affecting the work of users.

2.8 Access Control and Usage of IT infrastructure

In respect of access control and usage of IT infrastructure the University policy shall be as follows:

The University shall have the right to control the access to the various computing resources and databases in the University.

1. Accessing undesirable/illegal/harmful/copy right in fringing materials using the University computing resources is prohibited. The access to those materials/websites shall be blocked to the extent possible. Log of accesses to websites of doubtful nature shall be maintained and scanned from time-to-time.
2. Users are expected to respect the privacy of other users and they may not allow any other person to use their password or share their account. It is the users' responsibility to protect their account from unauthorized use by changing passwords periodically and using passwords that are not easily guessed. Sharing of passwords for any purpose whatsoever is strictly prohibited.
3. Any attempt to circumvent system security, guess others' passwords, or in any way gain unauthorized access to local or network resources is forbidden. Users may not use another person's computing account, attempt to forge an account identity, or use a false account or e-mail address.
4. Downloading and installing of new software has to be done with the explicit consent of the respective facility in-charges. Installation of unlicensed software on university facilities, or on individual machines connected to the University network, is prohibited and sole responsibility of users.

5. To the extent possible, users are expected to use only their official email addresses provided by university for official communications with other members of the University.
6. Recreational downloads and peer to peer connections for recreational purposes are not allowed unless it is academic requirement.
7. Users are expected to take proper care of network equipment, and are expected to report any malfunction to the staff on duty or to the in-charge of the facility.
8. Playing of Games in University laboratories or using University facilities for same is prohibited.
9. The users shall maintain discipline and shall not cause any damage to any resource of the Computer Centre and other laboratories.
10. The users shall not bring any food item to the Computer Centre.
11. Every user shall sign a user acceptance document assuring to abide by the above rules at the time of applying for Internet user login account. With the approval of competent authority disciplinary action shall be initiated against a user violating any of these rules and shall block his/her access to the resources in the Computer Centre.

2.9 Risk Management of IT infrastructure

With growing dependency on IT infrastructure, the threats and vulnerabilities to IT infrastructure are of great concern today. IT infrastructure faces several risks and the risk exposure may vary from time to time. It is necessary to perform IT infrastructure risk assessment on regular basis. The University shall follow the risk management policies as given below:

- Periodic and Scheduled back up of data geo graphically separated location.
- Keeping IT infrastructure under surveillance at critical locations.
- Use of fire alarm, smoke alarm and fire extinguisher
- Earth quake resistant buildings
- Use of Anti-virus tools for protecting servers, desktops and network devices from malwares
- Regular updating of software with security patches
- Regular updating of firewall

2.10 Computer Centre Committee

There shall be a Computer Centre Committee consisting of one representative from each of the user departments with the Vice-Chancellor/VC Nominee as the chairman and the HOD/In-charge of the Centre as its convener. The committee shall meet at least once in a semester to review the functioning of the IT infrastructure and to take major operational and policy decisions.

2.11 e-Content development and Management

Computer Centre will create technology enhanced learning resource centre at IKGPTU to enhance quality of teaching and capture the digital content in a high-quality format with less manpower. It will encompass entire digital content development cycle from production to consumption by the end user. All the policies related to usage of learning resource centre will be finalized by committee with approval of competent authority.

IT Services

It will encompass entire digital content development cycle from production to consumption by the end user. All the policies related to usage of learning resource centre will be finalized by committee with approval of competent authority.

2.12 Violation of IT Policy

Violations of policy will be treated as academic misconduct, misdemeanour or indiscipline as appropriate. Depending upon the nature of the violation, the university authorities may fine/or and take an appropriate action as per penal provisions under Indian laws. The policy may change as and when it is considered appropriate and new policies or the changes in policy will take effect immediately after a brief announcement by any means, e-mail, printed notices.

- Every user has provided desktop, Printer, Scanner, Laptop (as requires)
- All administrative works are carried out
- User has provided LAN connection also provided WI-FI facilities to all Academics as well as Administration building.
- All teaching departments have well established Computer Labs with all required software's as per their syllabus requirements.
- There are total number of 700 (appx.) computers are available in computer labs in various departments.
- University is also well-equipped Computer Centre 130 computers (being expanded up to 300 computers) and Internet facilities.

I.K. Gujral Punjab Technical University, Jalandhar IT Policy

1. Preamble

The I. K. Gujral Punjab Technical University was established by an Act of State Legislature on 16th January, 1997, to promote Technical, Management and Pharmaceutical education in the state at degree level and above. Over the years, the University has grown substantially in terms of departments and academic programs as well as in infrastructure. In the journey of 13 years, University has established Main Campus at Kapurthala and five constituent campuses located at Mohali, Amritsar, Hoshiarpur, Sultanpur Lodhi in the state of Punjab. Every stake holder of the University has requirements of IT services to work smoothly. Realizing the importance of such services, Information Technology cell has been established in 2008 for setting up basic network infrastructure in the University premises.

Need for IT Policy

The basic purpose of University's IT policies is regarding protection of computer, email and network usage of all individuals associated with I.K. Gujral Punjab Technical University. Inappropriate use makes the university vulnerable to risks such as virus attacks, misuse/commercial usage of official emails, compromise of network systems and services etc.

Access to the information technology environment at I.K. Gujral Punjab Technical University is a privilege and must be treated as such by all users. Students, Staff and other Stake holders are expected to be positive members of the University community, which extends to cyberspace, by following all University policies.

I. K. Gujral Punjab Technical University provide all faculty, students and staff with a modern, fully networked computing and IT environment for academic use.

[Handwritten signature]

IT Services
IKG PTU, Jalandhar-Kapurthala

[Handwritten signature]

I.K. Gujral Punjab Technical University, Jalandhar IT Policy

Users of I. K. Gujral Punjab Technical University computing, networking and IT facilities are expected to abide by the rules, which are intended to preserve the utility and flexibility of the system, protect the privacy and work of students and faculty, and preserve our right to access the international networks to which the system is connected. In case of complaints, appropriate action to be taken will be decided and taken by the I. K. Gujral Punjab Technical University Authorities.

The IT department of the University has implemented an internet facility through optical fiber backbone connecting the academic as well as administrative departments. The IT department should ensure the internet facilities to be provided to each stake holders of the University. It also maintains the cloud server, web server, Microsoft mail server, administrative database server, Biometric server, CCTV, antivirus/end point protection, University domain, sub-domains, various software / hardware, etc. of the University.

Dated.....

In addition, it also maintains the computing resources used by the faculty and the administration.

Maintenance of these computing resources has become a cause of serious concern over the years. With the increase in the size of the computing resources in the University, need has also arisen for streamlining the process of procurement, maintenance and disposal of the computing resources in the University. A policy document in this regard has therefore become necessary in the University.

2. The IT Policy

The IT policy shall include the following aspects:

- 2.1. Services to be provided by the computer centre (IT Services department)
- 2.2. Procurement of IT Infrastructure

Signature *Deepak*

IT Services
IKG PTU, Jalandhar-Kapurthala

Signature

- 2.3. Maintenance of IT Infrastructure
- 2.4. Networking facilities
- 2.5. Development, maintenance and upgradation of the software.
- 2.6. Green Computing Practices
- 2.7. Disposal of obsolete or unusable IT Infrastructure
- 2.8. Access control and usage of IT Infrastructure
- 2.9. Risk Management of IT Infrastructure
- 2.10. Computer Centre Committee
- 2.11. e-Content development and Management
- 2.12. Violations of IT Policy

2.1 Services to be provided by the Computer Centre

The Computer Centre shall provide the following services:

- Provide computing resources to the students, Faculty Members, Administration and other stake holders.
- Set-up and maintain the LAN and WiFi.
- Facilitate Internet, email services etc. to all University users.
- Maintain the University websites.
- Assist the Administration in the process of Selection and Procurement of Computing Resources.
- Organize training programs for the faculty and staff from time-to-time.
- Provide necessary support for IT related services.
- Upgradation of IT infrastructure.
- Implement various software/websites/portals for smoothening the process.
- Conducting Skill Tests for recruitments
- Providing resources for conducting online examinations

I.K. Gujral Punjab Technical University, Jalandhar IT Policy

2.2 Procurement of IT Infrastructure

The computing resources shall be procured by the Computer Centre of University. The process of procurement of the computing resources by the Computer Centre shall be as follows:

Computer Section, IKGPTU

- The specifications for the computing resources shall be worked out by the Computer Centre in coordination with Intender. Dated.....
- The purchase process shall be as per university norms.

2.3 Maintenance of IT Infrastructure

The post-warranty maintenance of the computers, servers and other IT equipment's shall be carried out through AMC. The requirement of AMC will be depending upon the cost and critical nature of the device. The procurement process of AMC shall be managed by the computer center. A small buffer of necessary IT equipment's shall be maintained for temporary replacement in critical usage cases.

2.4 Networking facilities

The LAN and WiFi facility shall be provided and maintained by the Computer Center. The LAN facility shall cover all the academic departments, administrative departments, constituent campuses, offices, hostels, and the residential area with the approval of competent authority. The wifi facility shall be provided in the entire campus in phased manner. Appropriate technologies shall be used for the networking. The procurement, installation, administration and maintenance of the networking equipment shall be the responsibility of the Computer Centre.
