

**I.K Gujral Punjab Technical University, Kapurthala
Department of Electrical Engineering
(Main Campus)**

2.2.1 QIM	<p>The institution assesses the learning level of the students and organizes special Programmes for advanced learners and slow learners.</p> <p>Department of Electrical Engineering assesses the performance of all the students enrolled in the B.Tech, and M Tech programmes of the all the semester through mid-semester tests, end semester tests, practical lab exercises, quiz, group discussions, and projects. Students are also explored to several experts' talks by renowned industry experts and training programmes throughout their degree programme in the form of workshops, 4-week institutional training at the end of first year, six week industrial training at the end of the second year and one semester industrial training both in hardware and software in the final year. In addition to this, students are asked to participate to several curricular and extracurricular activities conducted at the departmental level as well as at the institution level. An option is given to the advanced learners where they can opt for a minor degree programme. For the slow learners, departments offer various remedies like improvement tests, a repeat of lab practical, and students are allowed to ask the doubts any time from their teachers. Students are encouraged to enrol in various online courses of their interest. There is provision of remedial classes and also for numerical based subjects additional tutorials can be taken.</p>
