The unique feature of this practice is that the content being taught is a well-structured course and has the following guidelines:

- **Universal**
The content needs to be universal – applicable to all human beings and be true at all times, all places It should not depend on sect, creed, nationality, race, gender, etc.
- **Rational**
It must be amenable to logical reasoning
It should not be based on blind beliefs
- **Verifiable**
The student should be able to verify the values on one's own right
Should not be asked to believe just because it is stated in the course
- **Leading to Harmony**
Values have to enable us to live in peace and harmony within our own self as well as with others (human being and rest of nature)

Holistic, All Encompassing

Covers all dimensions of being, as an Individual:

1. Thought
2. Behaviour
3. Work
4. Understanding/Realization

Eg. In Thought – we want to have clarity (a state of resolution, solution) NOT confusion (a state of problem)

Covers all levels of living:

1. Individual (human being)
2. Family
3. Society
4. Nature/Existence

Eg. As a Family, Society – we want Fearlessness / Trust
NOT fear (due to mistrust / opposition)
