ABOUT THE PROGRAMME

The M.Phil Programme is an intensive, one year master's programme designed for people with a background in sciences/social sciences and who are interested in developing the skills required to meet the challenges of interdisciplinary research. The M.Phil programme provides an opportunity to enhance the professional & technical knowledge. The programme aims at to provide a substantive exploration of the theory and practice of sciences with a focus to impart research skills to the students. The University will admit 30 students with a maximum of 5 students per stream. The course will provide an opportunity to highly-motivated post graduates, who are planning a career in teaching and research.
