Major Achievements of College

- CEC is a co-educational institution with around 5,000 pupils. CEC is a modern, forward-thinking institution which embraces new opportunities for the rightful growth of the students. Latest teaching and learning processes are used in order to equip the students with the best of knowledge and skills. Tradition remains important and still shapes some of the guiding principles, but it is a willingness to innovate which has seen the institution thrive for almost fifteen years. The institution has been applauded by leading renowned agencies for its academic achievements from time to time.
- Standing by its promise to the young professionals CEC has always given quality placements. Top notch multinational companies like Microsoft, Capgemini, IBM, Dell, Genpact and many others reach CEC every year to recruit fresh engineering professionals at a good scale. This year the highest package earned has been of Rs 31.77 lakhs and there have been 5,134 placement offers. This has helped CEC in remaining at the helm in placements in Northern India.
- The institution offers an excellent sports and activities program which enables boys and girls to identify and develop their own skills and strengths. Rich accolades have been won by the professionals in inter university and intra university tournaments in games like cricket, football, athletics, power lifting, table tennis, badminton and chess. All this is due to a very supportive environment here.
- We welcome talented boys and girls and they are assisted with up to 100% fees concession.
- CEC has a full range of academic departments which are organised into four divisions Mechanical Engg., Computer Sciences, Information Technology and Electronics and Communication. All the departments here are self-governing institutions within the college. There is a healthy combination of lectures & laboratory work provided by faculties & departments.
- Academic departments are located centrally within the campus and help the students in having a commodious environment for study. Departments provide facilities for teaching and research, determine the syllabi and guidelines for the teaching of students, perform research, and deliver lectures and seminars.
