Dean (Academics)  
IKG- Punjab Technical University  
Jalandhar

Dear Sir,

We are organizing a **National Seminar on "Green Vehicle Technology for Cleaner Environment"** on **March 10-11, 2016**. Nowadays, road transport is the third largest source of greenhouse gases emitted into the atmosphere. In Delhi, transport sector is contributing more than 70% of the total air pollution due to which the current pollution level is 12 to 14 times the safe limit. So, the use of green vehicles can contribute to the cleaner environment in an effective manner. A green vehicle is a motor vehicle that produces less harmful impact to the environment than comparable conventional internal combustion engine vehicles running on gasoline or diesel, or one that uses certain alternative fuels. These vehicles reduce air pollution and greenhouse gas emissions, and also contribute to energy independence by reducing oil imports. Hence, this seminar has great relevance to engineers and researchers working in automotive related fields.

Your esteemed organization is one of the pioneering Institute/ Research Laboratory/ Industry in the field of engineering. We solicit your active support and kind help in this regard for making the seminar successful. We request you to encourage your Students, Research Scholars, Faculty Members, Scientist, Engineers to participate in the said National Seminar. The detailed brochure of the seminar is available on our institute website.

It will be highly appreciated if you sponsor some participants for the seminar.

With regards,

Thanking you,

Yours sincerely,

Dr. M.P. Poonia
