Subject: **Usage of Indian Language Fonts & Software Tools in Government departments to facilitate working on computers in Indian Languages.**

Under TDIL programme, Department of Electronics & Information Technology (DeitY), Government of India (GoI) has developed software tools & fonts for all the 22 constitutionally recognized languages in the form of a CD. Office related tasks such as preparing letters, spreadsheet presentation, database and drawing can be easily done with it effectively. This entire suit is free and is also available for download from http://www.ildc.in.

2. In this regard, a letter from Dr Rajendra Kumar, Joint Secretary, DeitY, GoI is attached for information & necessary action.

Assistant Manager

Subject: Usage of the Indian Language Fonts & Software Tools in Govt. departments to facilitate working on computers in Indian Languages.

Dear Shri Talwar,

TDIL programme of DeitY is engaged in the development of language technologies and associated standards. As a result of years of sustained work, a rich repository of achievements in the form of tools, fonts, applications and standards has been created, which can be accessed through http://www.tdil-dc.in.

A specific achievement out of the above, which may be of particular interest to all Government departments, is a collection of software tools and fonts for all the 22 constitutionally recognized languages in the form of a CD. Office related tasks such as preparing letters, spreadsheet, presentation, database and drawing can be easily done with it effectively. This entire suit is free and is also available for download from http://www.ildc.in .

A request for free shipment of the CDs at desired address can be made by sending an E-mail at info@ildc.in. For user support, a toll free no 1800-209-1015 is operational. The training also can be organized by DeitY depending on your specific requirements.

I request you to implement and make extensive use of these tools in all your e-governance initiatives. It is also requested that the copy of this communication may be forwarded to all government departments and District Collectors in your state who may like to disseminate these Indian language tools widely for use in their offices. Any comments and suggestions on these tools are most welcome.

For any questions or clarifications, you may kindly contact Ms Swaran Lata, HoD & Scientist 'F' at E-mail: slata@mit.gov.in and phone 011-24363525.

Regards,

Yours sincerely,

(Dr. Rajendra Kumar)
