## Suggestions &amp; Comments made by different colleges

Sr. No.	Name of Colleges	Suggestion
1.	Chitkara School of Planning & Architecture, Rajpura	Admission to Architecture has to be on the basis of NATA Score and 10+2 Score as per Council of Architecture guidelines.
2.	Global Colleges of Engineering & Technology, Kahnpur Khui	<p>Admissions in Engg. &amp; Architecture courses on AIEEE rank basis for the session 2010 – 11, the following steps need to be taken: -</p> <ol style="list-style-type: none"> <li>1. 50% of the seats should be exclusively reserved for AIEEE category, out of which 15% should be earmarked for NRI / foreign students.</li> <li>2. PTU on its own should take the responsibility for publicizing seats available in Engg. &amp; in state colleges in other state and thlrld world countries, where such resources are lacking.</li> <li>3. Fees structure for NRI / International students also need to be revised keeping in view the resource base of such nation.</li> <li>4. In fact, government of India has already allocated several scholarship / financial assistance / fellowship etc. for such foreigner students. PTU International cell should be created which should enhance international admission and generate more resources for the state.</li> </ol>
3.	Centre for Management Training & Research, Kharar Distt. Mohali	<p><b>31.4 Constitution of New Board of Studies</b></p> <ol style="list-style-type: none"> <li>i) It should be mandatory that the immediate past Chairman of the Board of Studies continues as member of the Board of Studies. This will provide continuity.</li> <li>ii) All Boards must meet at least twice in a year. Once in July / August to initiate the process of syllabus review in the succeeding academic year. Second time the meeting of Board of Studies must be held in Dec / Jan to approve the changes in the syllabi and course structure for the succeeding forthcoming year.</li> <li>iii) A clear definition of duties of Chairman Board of Studies and Dean (Academics) must be spelt out.</li> <li>iv) In case of various branches of engineering there may be a need for coordination to avoid duplication in the course structure.</li> </ol> <p><b>Additional Suggestions</b></p> <p>All university courses can be codified in a manner to</p>

facilitate various actions of the examination wing. A suggested scheme is: -

i) First alphabet to represent the discipline

For example

E for Engineering

M for Management

P for Pharmacy

H for Hotel Management

C for Computer applications etc

ii) The second alphabet represent the branch / degree.

For example

M for Mechanical Engineers

E for Electrical Engineers

C for Computer Science etc.

iii) The next two members represent the semester.  
They can be from 01 to 08 for all UG courses and 09 to 12 for all PG courses.

iv) The next two digits represent the course number.

v) The next two digits represent the year in which the course is offered.

A carefully coded scheme of course numbers can help in avoiding a lot of coordination problems between the Academic and examination wings of the University

### 31.7 Academic Calendar

The University must have a uniform academic calendar for all future years. It should not be allowed to be modified or tinkered with every now and then. A suggested calendar for consideration:

Start of odd semester	Last Monday of July
Last day of all admissions	3 <sup>rd</sup> Friday of August
Last day of approval of admissions	Last day of August
Start of odd semester exam	Second Monday of Dec
Start of even semester	First Monday of Jan
Start of even semester exam	First Monday of May
Summer Vacation	First Monday of June to Second Friday of July

The Academic Council / Board of Governors must take firm stand on the issue of academic calendar. The University must ensure that all regular admissions are completed well before the beginning of the odd semester.

		<p><b>31.18 Revision of fee structure</b></p> <p>Technically and legally the University opinion regarding the revision of fee structure may be correct. However, it is felt that the University cannot absolve itself from a moral responsibility that the colleges affiliated are not at a disadvantage vis-a-vis competition. For example the private universities are not only free to fix the fee structure but have the freedom to admit any number of students in any program. They have already started admissions for the next academic year.</p>
