In case the candidate has completed both XII Standard and Diploma, the best of the two will be taken into consideration.

3. Candidates should not have participated in the Infosys Limited and/or Infosys Group Company (such as – Infosys BPM) selection process in the last 6 months

4. No active backlogs are allowed.

Calculating scholastic average for Infosys Recruitment Process

Please follow the instructions shared below to calculate your scholastic average as per our requirements.

- We need simple average/aggregate percentages for education details of X Standard, XII Standard (if applicable), and Diploma which includes:

- All Languages
- Additional Subjects
- Practical
- Optional Subjects

The formula for calculating simple average/aggregate percentages is:

$$\frac{\text{Total marks obtained in all subjects}}{\text{Total maximum marks for all subjects}} \times 100$$

Here is an example of how you can calculate a simple average/aggregate:

	Marks obtained	Maximum marks
Subject 1	60	100
Subject 2	73	100
Subject 2 Practical	26	50
Subject 3	82	100
Subject 3 Practical	52	100
Optional	77	100
Additional Subject	48	75
Total	418	625
Simple Average/Aggregate = 418/625 = 66.88%		

- If your college/institute/university follows a CGPA system, please ensure that the CGPA is calculated considering each and every course/subject/elective that you have undertaken in that academic year including optional or additional subjects (if any).
