The board discussed the agenda and following decisions were made.

1. In the light of affidavit provided by authorities of IKGPTU regarding B.Tech. (Mining Engg.), BOS is of the view that any further necessary action should be taken up after the instructions from the Hon'ble High Court. In the meantime, IKGPTU concerned authorities are requested to provide a copy of affidavit filed by IKGPTU.
2. BOS reviewed the syllabus & scheme of M.Sc. Environmental Sciences and has following observations
 - The syllabus is quite lengthy, therefore first three semesters should have 5 subjects which includes Core, Elective & Open etc.
 - The code given should reflect the degree for e.g. M.Sc. course should be mentioned like MEVS rather than EVS only.
 - The seminar should be in one semester only.
 - The list of Open Elective subjects are given for one semester whereas a list of Electives for semester two and three may be provided to BOS (4-5 subjects per Elective).
 - The core courses should be of 4 credits whereas elective subjects should be of 3 credits. After incorporating the above changes, the syllabus & scheme may be placed in next meeting of BOS for approval.
3. The BOS reviewed the scheme & syllabus of B.Tech 1st year EVS and recommended that it should be strictly as per the model syllabus given by UGC for EVS at graduate level students in the light of decision given by the Hon'ble Supreme Court. BOS also recommended that this case should be placed in next meeting of BOS Chairmen's meeting.
4. The BOS took the case of M.Tech. in Structural Design provided by Sri Sai Group under any other item agenda. The BOS asked the members of Sri Sai Group Institutions to provide course approval notification of IKGPTU. After the receipt of the approval, the soft copy of syllabus for the same course will be sent to experts for their comments before final approval of the syllabus by BOS.

The meeting ended with a vote of thanks.
