DEPARTMENT OF CIVIL ENGINEERING

Civil Engineering is the oldest discipline dating back from 4000 B.C to 2000 B.C since inception of Indus Valley Civilization to Great Pyramids in Egypt. Presently, the infrastructure development of Expressways, Rail network, Ports, Airports and Smart Cities is going on large scale worldwide. There is huge demand of Civil Engineers to create world class structures. The Department offers Under graduate, Postgraduate and Research Programmes in Civil Engineering. The B. Tech course in Civil Engineering emphasizes various aspects of construction, design and development of buildings, highways, metro and smart cities. Interactive teaching with on-site exposure is provided in order to enable the students to apply their knowledge learnt in the classroom to construction projects. The Department regularly organizes guest lectures by experts from industry, academic, research institutions. The Department encourages students to work for sustainable construction practices. The Department emphasizes on learning and upgradation of various technical and professional skills also. The Civil Department has well-established state of art Geotech, Concrete Labs with advance software such as STAAD PRO etc. with unlimited licences.
