ACADEMIC MENTOR @ KALVIUM

About Kalvium:

Kalvium is building India's first university that works like a technology company. We embed inside university campuses and run a 4-year CS degree program where students build real products, learn from mentors (not lecturers), and graduate ready for the industry. 20+ campuses. 4,000+ students. One belief: Education should be engineered, not delivered.

What You'll Own:

Own two areas: (1) Developing technical understanding and depth for 2–3 CS courses. (2) Overall growth and transformation of a cohort of ~25–30 students.

Your Role:

- ❖ Run daily sessions as per campus schedule — teaching CS courses, guiding coding assignments, conducting live problem-solving.
- ❖ Run growth coaching sessions for cohorts. Track progress, flag at-risk students, identify interventions.
- ❖ Evaluate student submissions/assignments and provide actionable guidance.
- ❖ Maintain session discipline — attendance, punctuality, classroom energy.

Pre-requisites:

- 1) M.Tech / ME in Computer Science or related discipline
- 2) Strong fundamentals in data structures, algorithms, and at least one programming language
- 3) Ability to explain technical concepts clearly in English
- 4) No prior teaching experience required — must want to teach/mentor

Kalvium's core values:

- ❖ We obsess about student experience and outcomes above all.
