BUSINESS INCUBATION CENTRE (BIC)

Business Incubation Centre
(BIC)

**IK GUJRAL PUNJAB TECHNICAL UNIVERSITY
KAPURTHALA**

(A State University Established by Govt. of Punjab vide Punjab Act No. 1 of 1997)

About Bussines Incubation Centre

I.K. Gujral Punjab Technical University (IKGPTU) has conceptualized the establishment of Business Incubation Centre (BIC) to nurture innovation and entrepreneurship among its students, faculty, alumni, and the larger community. The initiative is aimed at promoting a vibrant start-up ecosystem that supports the journey from ideation to successful enterprise creation, thereby shaping the next generation of entrepreneurs.

Dr. Susheel Mittal

Message from the Vice Chancellor

At I.K. Gujral Punjab Technical University, we believe that innovation and entrepreneurship are the cornerstones of a progressive society. The Business Incubation Centre is a testament to our commitment to nurturing young minds and empowering them to create impactful solutions for the future. I invite students, researchers, and entrepreneurs to leverage this platform and contribute to building a vibrant and self-reliant India.

Dr. Navdeepak Sandhu

Message from the Registrar

The Business Incubation Centre of IKGPTU reflects our university's proactive approach to supporting startups and fostering entrepreneurial talent. We are dedicated to providing the necessary infrastructure, administrative support, and policy framework that enable startups to thrive and scale. I encourage all stakeholders to make the most of the opportunities offered by the BIC.

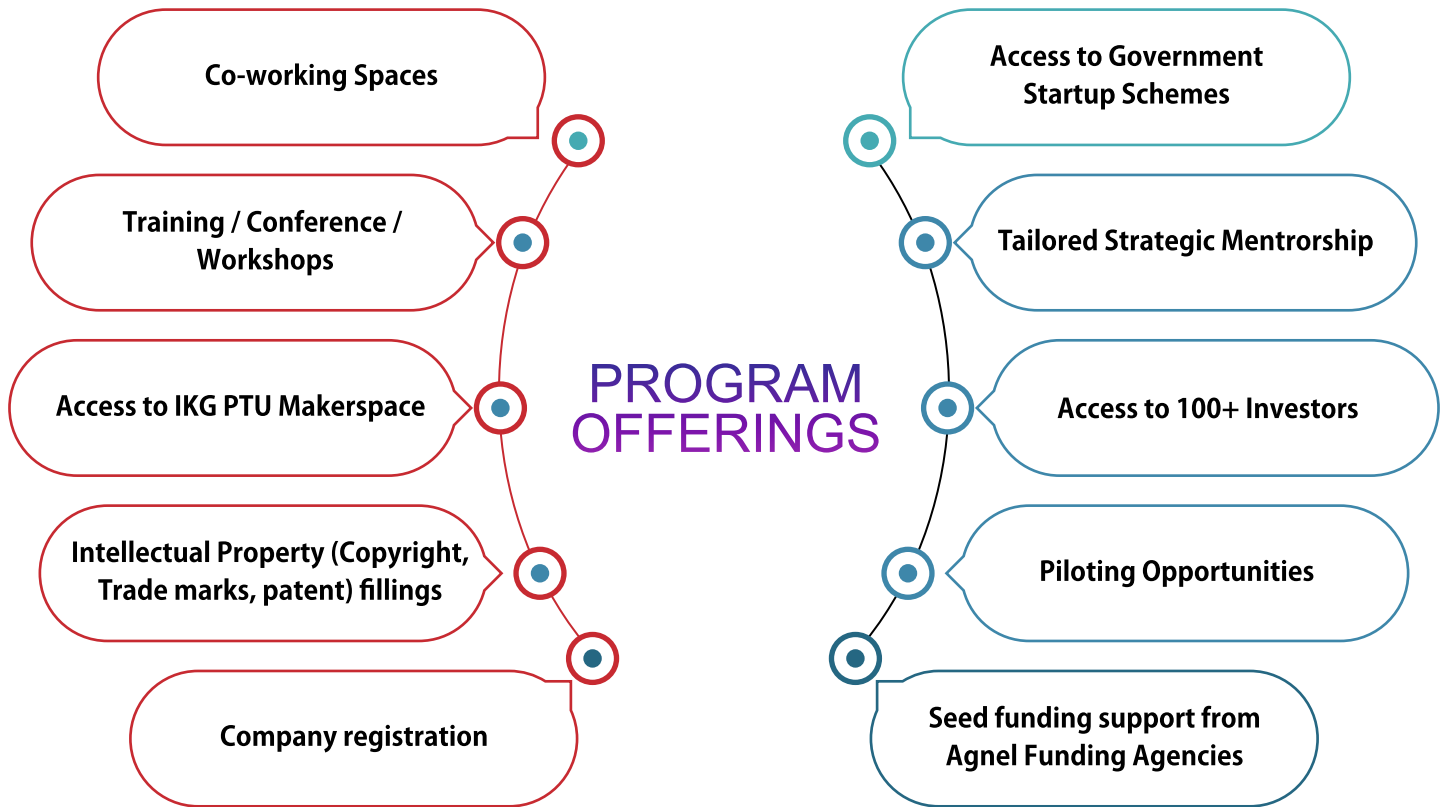

Dr. Neel Kanth Grover

Message from the Head, BIC

The Business Incubation Centre at IKGPTU is designed to support innovators at every stage of their journey—from idea to execution. Through mentorship, networking, funding access, and collaboration with industry and academia, we aim to create a supportive ecosystem for entrepreneurial success. We welcome passionate changemakers to join us and build the enterprises of tomorrow.

In addition to physical infrastructure, BIC provides following services to startups

Assembly Line (Chain Operated Conveyor)

Co Working Space

Cut Section of SUV Model

Laser Cutting Machine

Training Session @Makerspace

Robotic Arc Welding (KUKA Robot)

Eligibility

Eligibility for Startup Registration at BIC:

The Business Incubation Centre (BIC) at IKG-PTU invites applications from a broad spectrum of individuals and institutions. Eligible applicants include faculty and staff of IKG-PTU, students, research scholars, and staff of state universities and affiliated colleges, as well as alumni of IKG-PTU. Institutions engaged in R&D collaborations with IKG-PTU and external innovators with ideas aligned with BIC's mission are also encouraged to apply. Proposals should demonstrate potential for intellectual property generation, active engagement with BIC faculty and facilities, social or strategic impact, and significant resource generation or impact value. Selected applicants must incorporate their startups as unlisted companies under the Companies Act, 2013, within three months of approval.

Application Process

Admission Process and Selection Criteria:

The admission process to BIC involves a structured evaluation. Interested candidates must submit a detailed application along with a business plan. The BIC management team conducts an initial screening to verify eligibility and assess the proposal's basic merit. Shortlisted applicants are then invited to present their proposals before an expert evaluation committee. Selection is based on key criteria including innovation and technology content, market potential and scalability, strength of the core team, financial viability and funding requirements, as well as time to market and expected break-even period.

ADMISSION TO BIC IKGPTU

Join the IK Gujral Punjab Technical University's Business Incubation Centre for a vibrant startup ecosystem. Access cutting-edge labs, specialized infrastructure, and networking with industry experts to turn your ideas into enteroreneurial success.

IKGPTU's Innovation Milestone : Launch of PDIF with IIT Ropar

Driving Regional Innovation and Industry Solutions As part of its continuous commitment to nurturing innovation and entrepreneurship, IKGPTU has partnered with IIT Ropar to launch the Prototype Development and Innovation Fund (PDIF) — a major initiative aimed at translating research into impactful prototypes and solutions. This fund reflects IKGPTU's proactive efforts to bridge the gap between academic research and market-ready technologies. PDIF is a platform to empower students, faculty, and innovators across academia and industry to co-develop solutions that address real-world industrial and societal challenges, especially those relevant to Punjab's regional ecosystem. With PDIF, IKGPTU has strengthened its role in the innovation value chain by:

- Supporting the commercial validation of promising technologies
 - Promoting collaborative R&D between academia, industry, and government agencies
 - Accelerating prototype development for both industrial applications and grassroots innovation.
- This initiative stands as a testament to IKGPTU's vision of creating an innovation-driven academic ecosystem, contributing to regional development, and supporting India's national mission for self-reliance (Atmanirbhar Bharat).

IKGPTU's Strategic Role in Startup Punjab Hub (Neuron-CoE) at STPI Mohali

Driving Regional Innovation and Industry Solutions As part of its continuous commitment to nurturing innovation and entrepreneurship, IKGPTU has partnered with IIT Ropar to launch the Prototype Development and Innovation Fund (PDIF) — a major initiative aimed at translating research into impactful prototypes and solutions. IKG-PTU INCUBATED STARTUPS

MOOVANA

1. Shivam Sharma, CEO, Student (B.Tech CSE)
2. Vikalp Upadhyay, COO, Student (B.Tech CSE)

MooVana is an innovative milk vending machine startup that brings fresh, unadulterated milk directly from farmers to consumers. Our smart vending machines offer multiple milk varieties, on-the-spot purity testing, and a sustainable, plastic-free model—ensuring affordability, transparency, and convenience for Tier 2 & 3 cities in India.

FRUFAST

1. Alok Kumar Jha, CO- Founder and CEO, Student, (B.Tech CSE)
2. Ankit Kumar Jha, CEO, Passed Out Student

FruFast is a hyperlocal marketplace that empowers small shopkeepers, ration stores, fruit and vegetable vendors, and clothing sellers by connecting them directly with customers at lower costs than mainstream platforms. Its motto is to promote local businesses and ensure affordability while offering fast and seamless delivery services. Unlike other platforms, FruFast stands out with its cost-effective model, direct vendor-customer interaction, and inclusivity of diverse local businesses, making it the best choice for both sellers and buyers.

KARYA KASH

1. Ishmeet Kaur, CEO, Student, (B.Tech CSE)
2. Nimar Sidhu, CTO, Student, (B.Tech ESE)

Karya Kaksh is a redefined public study space with state-of-the-art facilities including advanced tech, aesthetic architecture and community-focused services. It offers a blend of quiet study zones, collaborative areas, and high-tech resources to meet the varied needs of our users.

ASHOKA WATCH COMPANY

1. ARPIT DHINGRA, CEO, Student, B.Pharm (ACET)

Ashoka Watch Company, hallmark of horological excellence and a legacy of unparalleled craftsmanship. We embrace a tradition of timekeeping that spans generations. Each watch we curate exudes a timeless elegance, meticulously designed to capture the essence of style, sophistication, and precision. Our dedication to perfection is reflected in every intricate detail, be it the finely crafted dial or the precise movement, ensuring that every watch becomes a symbol of personal expression and lasting legacy.

IKG-PTU INCUBATED STARTUPS

I ZWICK

1. Jai Shive Saini, CEO, Student (B.Tech CSE)
2. Vinayak Aggarwal, CTO, Student (B.Tech CSE)

I ZWICKY
THE COMMUNITY

We're building a next-gen social experience platform that helps people seamlessly connect, plan, and participate in events, sports, and shared activities. From forming teams for games to organizing meetups and exclusive events, our platform makes it easier than ever to find like-minded people and turn ideas into real world experiences.

GROW GREEN

1. Arsh Raj, Founder, Student (B.Tech ECE)
2. Gurleen Kaur, Founder, Student (B.Tech CSE)

GrowGreen

GrowGreen is an AI-powered agritech startup that enhances farming efficiency with smart irrigation, crop monitoring, and automation. Using AI & IoT, we help farmers reduce waste, improve yield, and promote sustainable agriculture. Our B2B & D2C model connects fresh, organic produce directly to consumers and businesses.

ELCTROREALM

1. Ankur Aditya , Founder, Student (B.Tech ECE)
2. Aditya Raj -, Founder, Student (B.Tech CSE)

ElectroRealm is an emerging startup dedicated to developing innovative, eco-friendly, and safe energy solutions for a sustainable future. As a young company, we focus on creating practical, green energy products, such as our flagship solar-powered bags that offer convenient, on-the go device charging. At ElectroRealm, we're driven by a passion to empower individuals with accessible, efficient, and portable energy solutions, aiming to contribute towards a cleaner, greener planet from the ground up.

GAUTAM AI

1. Vishal Gautam, Founder & CEO, Student (B.Tech ECE)

Innovating the future of digital marketing and SaaS solutions!

We help businesses grow with AI-driven tools for smarter decisions.

- SaaS Development
- AI-Powered Tools
- Digital Marketing Automation

IKG-PTU INCUBATED STARTUPS

NIYUKTI

1. Robina Mittal, Founder
2. VIKALP UPADHYAY, Co-Founder, B.tech CSE, IKGPTU

Niyukti offers a range of services aimed at skill development across all ages and streamlining employment generation. For schools, it will introduce early exposure to entrepreneurial thinking, coding, digital tools, and vocational skills through interactive, modular programs. In colleges, Niyukti will promote industry-academia collaboration by facilitating live projects, mentorship programs, and skill certifications co-designed with industry experts.

REDOMART

1. Ritik Kumar, Founder, B.Tech, ME, IKG PTU

Redomart is a startup focused on home decor lighting in India. We specialize in manufacturing a range of products—including wall lights, lamps, and chandeliers—that combine elegant design with superior quality.

COGNEURAL

1. Chirag Gaba, CEO, B.Tech (CSE)

Cogneural is a next-generation tech company redefining how intelligence is created, scaled, and integrated into human life. At its core, Cogneural blends the depth of cognitive science, the precision of advanced algorithms, and the power of artificial intelligence to build adaptive, personalized, and real-time intelligent systems that are scalable, reliable, and impact-driven.

PUJA PUROHIT

1. AJIT SINGH, Co-Founder, Student, B.tech, C.S.E. SBSSTC, Ferozpur
2. GOVIND MISHRA, CEO, student, B.tech, C.S.E

pujaPurohit

"Puja Purohit is one of the most unique ideas that actually addresses market need specific to the Indian subcontinent. The committee members were highly impressed by the validity of idea and its business potential. This startup has gained enough traction and has a functioning revenue model in place."

AGRIZEN ORGANICS

1. Amanpreet kaur Bachelor of food sci & technology (GNDU)
2. Pukhraj Singh, CO FOUNDER, BCA(GNDU)

Agrizen Organics is an innovative startup focused on sustainable agriculture through the utilization of agricultural waste. The startup has developed a unique concept of converting waste materials such as stubble and cow dung into manure and jiffy pallets. These jiffy pallets possess high calorific value, aiding in the release of essential nutrients during crop growth, which results in higher yields.

IKG-PTU INCUBATED STARTUPS

MORACOO

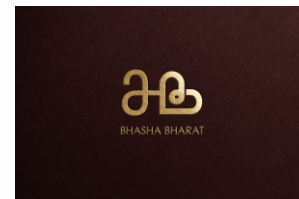

1. Awadh Sharma, CEO, Student (B.Tech CSE)
2. Armaan Mahto, Founder, Student (MBA) Finance

Moracoo brings a new definition to chocolate -where rich taste meets bold innovation. Every flavour is crafted with passion, purity, and personality. We don't just make chocolates, we create moments that feel luxurious in every bite. Moracoo is the taste you remember and the experience you want again.

BHASHA BHARAT

1. Shashank, Founder

Where tradition meets innovation! Incubated at RISE ASSOCIATION CGC ANDRA & NODAL AGENCY PTU, we're proud to be working towards sustainable fashion through handloom and natural dyes. And, a big shoutout to our team for winning the Silver Medal at the Handloom Hackathon! #BhashaBharat #SustainableFashion #HandloomHeroes

NATCHKIN

1. Manpinder K Bajwa , Founder

Natchkin is a sustainable women's hygiene company focused on providing rash-free comfort and redefining the period experience. Beyond products, we are committed to ending period stigma through education, reaching not only girls but also boys and men, to build awareness, empathy, and open conversations around menstrual health.

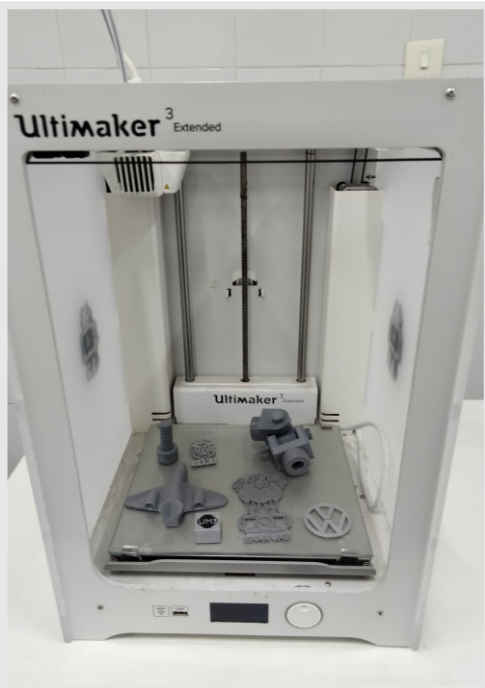

VIPASHA FARMS

1. Dinesh, Founder
2. Danish, Founder

Vipasha Farms is dedicated to growing premium organic crops using sustainable and eco-friendly farming practices. With a focus on purity and quality, the farm brings naturally grown produce straight from the fields to consumers.
