Directors/ Principals
All the University Campuses & it's Affiliated Colleges
I K Gujral Punjab Technical University, Jalandhar

Sub: POD Expert Talk: CSS Edition: CSS With Superpowers – Preprocessors.

Respected Sir/Madam

I K Gujral Punjab Technical University invite students of its campuses & affiliated colleges to participate in POD Expert Talk: CSS Edition: CSS With Superpowers – Preprocessors.

This session will be co-led by **Dharvesh Kumar**, a Frontend Expert in optimizing performance for large-scale applications, and **Ankush Makkar**, a dynamic developer specialized in building high-performance, production-grade interfaces using modern JavaScript frameworks. Together, they bring years of industry experience in bridging the gap between intricate design and scalable, logic-based code.

The session details are as below:-

Topic	:	CSS Edition: CSS With Superpowers – Preprocessors
Mode	:	Virtual / Online
Date	:	22-Apr-2026 (Wednesday)
Time	:	5:00 PM – 6:00 PM
Course/ Stream	:	B.Tech (All streams), BCA, MCA, and IT/CS
Batch Eligible	:	2026, 2027, 2028 & 2029 passing out

Why Attend:-

Most students struggle with "CSS debt"—thousands of lines of disorganized, hard-to-maintain code. Our experts will demonstrate how to use Sass and Less to treat stylesheets like actual software. This session is designed to transform a student's workflow, teaching them the programmatic patterns used by top-tier engineering teams to build modular and future-proof UIs.

Key Takeaways:

- Centralizing colors and fonts for instant, global updates.
- Writing cleaner code that mirrors your HTML structure without the clutter.
- Creating reusable "logic blocks" to automate repetitive styling tasks.
- Using Partials to organize your styles into a manageable folder system.
- Performing math and color manipulation directly within your style-sheets.
- Using loops and conditionals to generate utility classes dynamically.

“Propelling Punjab to a prosperous Knowledge Society”
