All the University Campuses & it's Affiliated Colleges

I K Gujral Punjab Technical University, Jalandhar

Sub: POD Expert Talk on: Stop Fighting CSS: The Architecture of Modern Web Layouts.

Respected Sir/Madam

I K Gujral Punjab Technical University invite students of its campuses & affiliated colleges to participate in POD Expert Talk on: Stop Fighting CSS: The Architecture of Modern Web Layouts.

This session will be led by **Mr. Abhishek Pandey**, a **Frontend Expert** and an expert in building scalable frontend architectures. Abhishek is a top academic achiever and gold medalist who has successfully transitioned from an outstanding student to a senior lead, delivering robust technical solutions for enterprise environments.

In professional web development, "guessing" CSS values is no longer enough. Abhishek will share practical insights into how modern organizations move beyond basic styling to build "resilient" and "architected" user interfaces that meet global standards for scalability and responsiveness.

The session details are as below:-

Topic : Stop Fighting CSS: The Architecture of Modern Web Layouts
Mode : Virtual / Online
Date : 21-Apr-26 (Tuesday)
Time : 9:00 PM – 10:00 PM

Why attend:-

CSS is often the most frustrating part of a developer's journey, yet it is the bridge between functionality and user experience. This session will help students move beyond "pixel-pushing" to understand the structural logic of modern layouts—a skill that is critical for clearing technical UI/UX rounds at top-tier product companies.

Key Takeaways:

- Mastering Flexbox and CSS Grid to build layouts that adapt, not break.
- How to write CSS that is modular, reusable, and easy to maintain in large-scale React applications.
- Using intrinsic sizing and modern units to handle any screen size with minimal code.
- Moving away from pixel-perfect obsession toward fluid, resilient system design.

“Propelling Punjab to a prosperous Knowledge Society”
