Sub: Infosys Springboard Registration Guide.

Respected Sir/ Madam

Infosys Ltd. has organized the Infosys Springboard Certification Course for the students of IKGPTU Campuses & affiliated colleges. But, it has been observed that some students are facing difficulties while registering on the Infosys Springboard platform. Some students are experiencing issues with **OTP verification**, which prevents them from completing the registration process.

To ensure a seamless registration experience, Infosys has prepared a step-by-step registration guide that does not require OTP verification.

The detailed Infosys Springboard Registration Guide is attached for your reference.

Furthermore, students are advised to select the **correct combination of State, City, and Educational Institution Name** while registering on the platform. It is important that these details are chosen accurately from the dropdown lists available on the registration page. In case students are unsure about the correct State, City, and Institution Name combination for your institution, they may write to email at dimple.bhasin@infosys.com for clarification.

You are requested to kindly direct the Training & Placement Faculty Coordinator(s) of your respective campus/ department to circulate the above information with the concerned students and encourage them to complete their registration on the Infosys Springboard platform at the earliest.

With profound regards,

Er. Mohit Jain
